Economic Outlook

Utah Economic Indicators: 2012-2014

Source: Council of Economic Advisors' Revenue Assumptions Working Group

- Overview of the Economy**—Utah typically grows more rapidly than the nation after recessions, and this pattern is continuing in the current recovery. For the U.S., employment grew 1.6% in 2013, compared to 3.3% for Utah. While employment increased during 2013, Utah's unemployment rate also improved to 4.8%, lower than the rate of 5.7% in 2012. Though housing stabilized, with building permits at 13,000 in 2013, home-building is not leading the economy as it does during a typical recovery.
- Outlook 2014**—Utah's job growth is expected to grow at 3.1%, equal to its long-term average, while the nation is at 1.7%. With job growth near the long-term average, the unemployment rate will decrease to 4.2%. In contrast to the early stages of the recovery, housing will provide noticeable support to the expansion. Repeating its leading role from 2012, construction employment will grow 9.4% in 2013. The continuing housing recovery accounts for most of the strong showing in construction.

Demographics

- Population**—Utah's 2012 total population count was 2,855,287. This represents a population increase of 40,940 people, or 1.5% from 2011, ranking Utah fifth among states in population growth. Utah grew more than twice as fast as the nation from 2011 to 2012. The total 2012 population count for the United States was 313,914,040. This represents a population increase of 2,326,224 people, or 0.7% from 2011.
- 2013 Outlook**—Utah will continue to experience population growth at a rate higher than most states in 2012 on account of strong natural increase in addition to in-migration. Natural increase (births less deaths) is anticipated to add 39,100 people to Utah's population. While net in-migration has slowed since the peak of the economic expansion, Utah's net migration is projected to remain positive at 5,000 people.

	Utah	United States
2011 Estimate	2,814,347	311,587,816
2012 Estimate	2,855,287	313,914,040
2011-2012 Percent Change	1.5%	0.7%
2011-2012 Numeric Change	40,940	2,326,224
