

“BLUE LIGHT-ING” Your Organization

Gain a rich understanding of “what *great* looks like” and a new vision for what is possible within your sphere of influence.

Mission

- What is the “mission” of your organization?

“Blue Light”

- What is “Blue Light” for your organization?

Control Point:

- *Agents are spending a higher percentage of time properly implementing evidence based practices
- *Agents are effectively managing offenders more and more

Goal:

Protect the public and reduce recidivism through evidence based practices.

Q = Supervised offenders who discharge as low risk or with a 15% reduction in their risk assessment score

T = Supervised offenders discharged from AP&P

O/E = AP&P costs

Feeding the Control Point:

- *Agents have a completed and fully accessible case file
- *Offender databases are complete and updated
- *Case Action Plans are effectively transitioned between institution and community supervision
- *Restitution is determined prior to supervision
- *Supervision of offenders is prioritized according to EBP
- *Data entry required by agents is minimized
- *Case appropriate risk assessments are available and utilized
- *More manageable caseload sizes

Following the Control Point:

- *Timely updates of legal status and location occur
- *Courts and BOPP provide immediate/appropriate sanctions and responses
- *Revokes/Restarts are updated in case set up
- *Courts apply standards consistently
- *Offenders have post supervision plans and are accessing supportive resources when needed
- *AP&P staff is providing offenders with positive reinforcement
