State of Utah

State Summary

This section focuses on major issues in the FY 2002 budget and FY 2001 supplemental appropriations. The tables and figures show the state fiscal plan by appropriation and sources of revenue.

BUDGET OVERVIEW

Summary

The total state budget for FY 2002 is \$7.2 billion. This is a 2.2 percent increase over the FY 2001 authorized budget. Total appropriations from school funds (income tax revenue appropriated to Higher Education and the Uniform School Fund) and from the General Fund grew by \$121.9 million, or 3.2 percent.

Administrative Services

The legislature appropriated \$1.4 million General Fund for the purchase of 800 megahertz radios and monthly service from the Utah Communications Agency Network (UCAN). Funds will be disbursed by the chief information officer to the Department of Corrections, the Department of Public Safety, and other state agencies that will operate over 3,000 radios on UCAN's system.

Lawmakers provided \$500,000 one-time General Fund as additional seed money for the Information Technology Innovation Program within the state's Chief Information Office. Funds will be used to develop value-generating information technology applications throughout state government.

House Bill 68, Annual Leave Conversion for State Employees, enacted certain provisions regulating the conversion of annual leave to a deferred compensation plan. Employees who have in excess of 320 hours of annual leave at year-end may convert the value of their excess leave up to

20 hours, based upon their hourly rate, to their deferred compensation plan. The bill caps the value that can be converted at \$250. The Division of Finance will use the FY 2002 appropriation of \$642,600 to reimburse state agencies on a proportional basis as determined by the Division of Finance.

Senate Bill 171, *State Retirement Formula Changes*, modified the Utah State Retirement Act to authorize an additional retirement benefit to retirees. It increases the multiplier rate for years of service prior to July 1967 from 1.1 to 1.25. The Division of Finance was appropriated \$752,200 to implement this bill.

The Automated Geographic Reference Center received \$500,000 of one-time General Fund for mapping and documentation projects. Part of this funding is to be used to establish rural survey control corners and to enable digital parcel mapping.

Capital Facilities Budget

The legislature appropriated a capital facilities budget to the Division of Facilities Construction and Management of \$131.6 million in FY 2002 and \$134.1 million as an FY 2001 supplemental. Capital facility projects include the following:

1) \$44 million for improvements to existing facilities; 2) \$71.3 million for classrooms at the College of Eastern Utah, Weber State University, Utah State University, and Utah Valley State College;
3) \$15 million for a new engineering building at the University of Utah plus \$5.0 million, including

\$387,000 in transfers, to remodel the Merrill Engineering Building at the University of Utah; 4) \$29.7 million for the Utah State University Heating Plant; 5) \$41 million for two extension buildings to the Capitol that will provide swing space while the Capitol is being renovated; 6) \$14.1 million for a new fine and performing arts center at Dixie State College; 7) \$16.1 million for a new performing arts center at Snow College; 8) \$265,000 to purchase property and provide money for design of a new youth correctional facility in the Canyonlands area; 9) \$12.5 million for a new courthouse in Logan; 10) \$5.8 million to demolish the existing Utah Field House of Natural History Museum in Vernal and construct a new museum at the same site; 11) \$2.7 million to purchase the Box Elder County Education Complex; 12) \$186,000 to purchase land at Uintah Basin ATC; 13) \$500,000 to purchase land at Ogden/ Weber ATC; and 14) \$5.0 million for the Huntsman Cancer Hospital.

House Bill 62, *Operation and Maintenance of State Buildings*, increased the funding required to be set aside for capital improvements from 0.9 percent to 1.1 percent of the replacement value of capital facilities. It also raised the limit of a capital improvement project from a project costing less than \$1.0 million to one costing less than \$1.5 million.

As part of the above actions, lawmakers increased the ongoing capital facilities budget by \$42.1 million, from \$47.3 million to \$89.4 million.

Utility Rate Increases

A state funds supplemental appropriation of \$8.6 million was given to state agencies and Higher Education to fund utility rate increases. Since this funding is one-time, future impacts of utility rate increases need to be addressed.

Commerce and Revenue

The legislature appropriated federal funding of \$6.0 million in FY 2001 and \$15 million in FY 2002 to the Department of Workforce Services

to provide employment training services, family stabilization services, child care quality services, housing services, transportation services, youth program services, computer enhancements, and employee training within Workforce Services. These services are for people who are eligible for the Temporary Assistance for Needy Families (TANF) program.

The legislature also approved \$2.0 million in ongoing federal funding for a 5.0 percent increase in the grant amount that TANF participants receive each month.

Lawmakers authorized \$842,600 in restricted funding for 10 additional financial examiners in the Department of Financial Institutions. These examiners are needed because of the strong growth in assets under management that is being fueled by Utah's favorable business climate. This growth in assets under management also dramatically increased the fees that have been collected from the financial institutions doing business in Utah. These fees are more than the department needs to regulate the industry. As a result, the legislature passed Senate Bill 44, *Fees Payable to the Commissioner of Financial Institutions*, which will reduce the annual fees paid to the department by over \$2.0 million.

Community and Economic Development

Several economic development appropriations were approved, including an FY 2001 General Fund supplemental appropriation of \$1.9 million to replenish the Industrial Assistance Fund for credits exchanged as loan payments. An additional \$6.8 million General Fund was appropriated to further capitalize the fund to take advantage of economic opportunities.

A one-time General Fund appropriation of \$1.5 million for Custom Fit was approved as a recruitment and retention incentive for business relocation and expansion.

The legislature also appropriated \$1.0 million in General Fund and \$300,000 from restricted

funds for the Utah/Silicon Valley Alliance initiative to entice high-tech firms to "grow-out" in Utah and to provide matching grants for rural communities to build smart space for the relocation of high-tech firms.

Ongoing General Fund for the Olene Walker Housing Trust Fund was increased by \$500,000 to bring the base budget to a total of \$2.7 million. An appropriation of \$300,000 in one-time General Fund was also provided to the trust fund.

House Bill 212, *Museum Educational Initiative*, provided \$1.0 million General Fund for technical and general assistance grants to locally operated museums.

Compensation

The legislature approved a compensation package of 4.0 percent to be used for merit, one-time bonuses for employees in longevity, and discretionary increases to employees based on performance. Funding for benefit increases for employees was also approved by the legislature.

Market comparability adjustments (MCAs) were funded separately by the legislature at only 55 percent of the General Fund cost. To make up the shortfall, the Department of Human Resource Management reduced the number of employees receiving an MCA. In addition, state agencies are required to use federal funds, dedicated credits, or restricted funds where possible to make up the remaining shortfall.

The legislature approved a 4.0 percent salary increase for Higher Education, with 75 percent of the cost coming from school funds. The remaining amount will come from dedicated credits (mostly tuition). The legislature also funded a 16.1 percent increase in health insurance premiums, a 3.0 percent increase in dental insurance premiums, and provided \$4.5 million for salary equity.

The Board of Regents approved an additional 1.5 percent tuition increase, in addition to the initial 4.0 percent, in order to fully fund the dedicated credit portion of the compensation package.

Public Education received a 5.5 percent increase in the Weighted Pupil Unit (WPU). The WPU increase will help fund compensation packages and other educational costs. Each school district negotiates its own compensation package with teachers and other employees. State appropriations are combined with local school district resources to fund the total compensation increase. The legislature also provided an additional \$10 million for two extra days of teacher training.

Elected and appointed officials received salary increases of 4.0 percent. Judicial salaries were also increased by 4.0 percent.

Legislators will receive \$120 per day for each calendar day of the annual general session. In addition, legislators will receive \$120 for each day they attend a veto override session, special session, or other authorized legislative meeting. The president of the Senate and the speaker of the House each receive \$3,500 per year. The majority and minority leaders of each house receive \$2,000 per year.

Corrections (Adult and Youth)

To address the expected annual growth in inmate population of 324 inmates, the legislature approved \$5.0 million in General Fund to fund the full-year operational costs of the new 288-bed addition at Gunnison. This facility was completed in January 2001 and is scheduled to open on July 1, 2001. The legislature also funded a General Fund supplemental of \$2.1 million for contracting with county jails for the housing of inmates. While no new funding was approved for FY 2002 for jail contracting, the legislature did increase funding for jail reimbursement to counties by appropriating an additional \$500,000 from the General Fund. The legislature also created a separate line item for jail reimbursement and transferred the funding for jail contracting into the institutional operations line item.

Lawmakers approved \$250,000 in General Fund to provide additional resources to monitor sex offenders. A portion of these funds will be

used to conduct a pilot project in Salt Lake County to measure the effectiveness of using the Global Positioning System. Such a system will allow the department to track and map out an offender's location at all times.

The legislature added \$910,000 General Fund to Youth Corrections to fund the remaining amount needed for full-year operation for the 32-bed Richfield Youth Center. In addition, Youth Corrections received \$750,000 in ongoing General Fund and \$702,000 in FY 2001 supplemental funding for the placement of juvenile offenders in community alternative programs.

Courts

Courts received an additional \$1.1 million General Fund for increased lease costs and a \$600,000 supplemental for juror and witness fees. The legislature also approved \$12.5 million General Fund for the construction of a new court facility in Logan.

Courts received permanent funding to expand programs statewide for child welfare mediation in cases of abuse, neglect, dependency petitions, and termination of parental rights petitions. Additional General Fund resources of \$520,000 were added to the Guardian ad Litem program. This funding will provide for increased support for attorneys, training, and investigators.

To assist in the implementation of the recommendations of the Utah Judicial Council Task Force on Racial and Ethnic Fairness in the Legal System, the legislature appropriated \$88,000 in one-time General Fund for a project coordinator and for diversity training in the criminal and juvenile justice system.

Elected Officials

A total of \$150,000 General Fund was appropriated to document and reprogram the Utah Process Economic and Demographic (UPED) Model. Another \$100,000 in one-time General

Fund was appropriated to assist counties and other local governments to develop and implement land use plans. The legislature also appropriated a total of \$2.5 million for legal research and litigation related to resolving the problems of who owns and is responsible for R.S. 2477 roads.

A \$7.5 million General Fund supplemental was appropriated to the State Olympic Officer to build tourism and attract business to Utah through the state's Olympic exposure. Included in this amount is \$2.0 million to be matched by the Salt Lake Organizing Committee (SLOC) and local governments to assist towns and communities in decorating and promoting the *Utah!* brand leading up to and during the Olympics.

The attorney general received a General Fund appropriation of \$75,000 to fully fund the obscenity and pornography complaints ombudsman, \$205,000 to provide for new Children's Justice Centers in Emery and Wasatch counties, and \$28,300 to provide for postconviction DNA testing of an incarcerated person.

Environmental Quality

The Executive Director's Office received an FY 2002 one-time appropriation of \$439,000 from the Environmental Quality Restricted Account to pay the legal and technical expenses the department has or may incur from the investigation, evaluation, and litigation efforts in its fight to keep high-level nuclear waste out of the state. The office also received a supplemental \$300,000 General Fund appropriation and an \$800,000 onetime General Fund appropriation to fund a nuclear waste opposition office that will do everything legally and politically possible to keep the storage of high-level nuclear waste out of the state. The legislature passed Senate Bill 81, Provisions Relating to High-level Nuclear Waste, which prohibits the placement of high-level nuclear waste within the state and prohibits governmental entities from providing services to facilitate the placement of this waste in the state.

The Division of Radiation received a supplemental appropriation of \$125,000 from the Environmental Quality Restricted Account to develop a generator site access license database and an electronic license system. The division also received an appropriation of \$317,700 from the same account to monitor containerized Class A low-level radioactive waste at the Envirocare facility.

Health

For the first time in four years, the legislature appropriated full ongoing funding for the Medicaid base program. The General Fund appropriation of \$32.3 million allows the state to comply with a federal mandate to expand the program to 18 year olds whose annual family income is at or below 100 percent of the federal poverty level. It also replaces lost federal matching funds and meets the increasing demands of utilization and inflation. In addition, the legislature addressed significant access problems with \$662,600 of General Fund to improve access for patients by paying better reimbursement for physicians, dentists, and ambulance companies.

The legislature also expanded Medicaid for two new programs. The first expansion included \$500,000 from the Medicaid Restricted Account to help 300 disabled people go to work and keep their health care benefits by implementing the Ticket to Work program, and the second included \$117,000 one-time General Fund to provide health care services to 61 women diagnosed with breast or cervical cancer.

The Utah Medical Assistance Program is for individuals who miss qualifying for Medicaid by a small margin and who have an acute illness. Early in FY 2001, the program reduced health care services and eliminated eligibility groups because of budget shortfalls. The legislature appropriated a \$1.4 million supplemental from the Medicaid Restricted Account for FY 2001 to restore these services. The legislature also appropriated \$326,000 of one-time funding for inflation, utiliza-

tion, and to improve access for patients by paying higher reimbursements.

The legislature appropriated the State Primary Care Grant program \$500,000 of ongoing General Fund. For the last four years the grant program has been funded with one-time money. The funding pays for direct health care services for 3,900 uninsured working poor adults.

A \$600,000 General Fund appropriation to the Baby Watch Early Intervention program will enable 200 new infants and toddlers who have disabilities and developmental delay to gain access to services that help them get ready to attend school. Because the program draws federal matching funds, it will receive a total of \$856,000 in new funding.

House Bill 61, *Medical Examiner Authority*, provided \$206,800 ongoing General Fund to the state Medical Examiner and gave the office authority to perform autopsies to provide information on suspicious highway deaths. The office was also appropriated \$200,000 one-time General Fund to restore budget shortfalls and to maintain evening and weekend office hours.

The state's youth suicide rate is well above the national average. The legislature appropriated \$100,000 supplemental General Fund for a pilot project to implement recommendations and interventions developed by the Youth Suicide Task Force. To help bring down Utah's rate, the project will identify home-based early interventions for youth at risk.

Higher Education

Higher Education received an additional \$49.7 million in new ongoing state funds (General Fund and school funds). This brings the total ongoing state funds appropriation to \$604.1 million, which is a 9.0 percent increase above the beginning base budget.

Higher Education received \$21.4 million in one-time state fund appropriations. Of this

amount, \$3.0 million is for the Engineering, Computer Science, and Technology initiative that is intended to double the number of engineering and computer science graduates at Utah's colleges and universities over the next five years and to triple them in eight years. The one-time appropriation also includes \$5.6 million for technology, \$4.4 million to offset the fuel and power rate increase at the institutions, \$1.0 million for the University of Utah technology infrastructure, \$1.5 million for the University of Utah School of Medicine, and \$500,000 for Salt Lake Community College's Wireless Pilot project.

Higher Education received a general compensation package equivalent to state employees. It includes a 4.0 percent increase for salaries and salary-related benefits, a 16.1 percent increase for health insurance premiums, and a 3.0 percent increase for dental insurance premiums. Sources of funding for the compensation package included \$22.2 million from state funds, \$8.0 million from dedicated credits (mostly tuition), and \$30,800 from other sources.

Because the tuition increase adopted by the Board of Regents prior to the legislative session only generated \$7.1 million in dedicated credits to apply to the compensation package, the Regents adopted an additional 1.5 percent tuition increase at their March meeting to fulfill the expected funding of the compensation package at each institution. In addition, the Utah System of Higher Education received \$4.5 million in salary equity funding. The Utah Education Network (UEN) received \$200,000 for salary equity.

UEN received \$2.1 million in one-time state funds as the final installment for the conversion of KUED - 7 and KULC - 9 from an analog to a digital environment as mandated by the Federal Communications Commission. In addition, UEN received \$1.0 million in one-time funding to add additional equipment to the network infrastructure to reduce 'single-points of failure' and improve network reliability and capacity.

Human Services

The Department of Human Services was appropriated \$461.9 million, a 3.8 percent increase from FY 2001. The General Fund appropriation increased by 6.7 percent.

The legislature appropriated an additional \$1.0 million in General Fund to expand drug courts in the state. The legislature also increased by \$100,000 the authorized amount of spending from the Intoxicated Driver Rehabilitation Restricted Account.

The Division of Mental Health received increased appropriations of the following amounts: 1) \$414,500 in total funds for the State Hospital to comply with new federal regulations regarding seclusion and restraint, 2) \$775,600 in General Fund to replace lost federal funding for state and local mental health programs, and 3) \$285,000 in total funds for increased medication costs at the State Hospital. The legislature also appropriated \$300,000 in one-time General Fund for local mental health services.

The Division of Services for People with Disabilities received increased funding to provide a variety of community services for individuals currently on the critical waiting list. The \$2.0 million the legislature appropriated, along with additional federal Medicaid matching funds, will provide services to approximately 372 individuals now on the disabilities waiting list. The division also received \$1.3 million in General Fund to maintain services at current levels due to a loss of federal matching funds and \$1.1 million in total funds to provide emergency services and meet multiple crises.

The Division of Child and Family Services received the following increased appropriations:

1) \$3.3 million total ongoing funds for FY 2002 and \$2.2 million total one-time funds for FY 2001 to provide support for adoption of children in the state's custody, 2) \$1.8 million in General Fund to maintain services at current levels due to a loss of federal funding sources, 3) \$426,000 in total funds to provide a rate increase to foster parents, and

4) \$700,000 in one-time federal Temporary Assistance for Needy Families (TANF) block grant funding to implement the court-ordered Milestone Plan. The legislature also increased by \$100,000 the authorized amount of spending from the Domestic Violence Services Restricted Account.

The legislature appropriated \$250,000 in ongoing General Fund and \$250,000 in one-time General Fund to the Division of Aging and Adult Services to provide services for individuals waiting for in-home services. The legislature also approved the following: 1) \$132,900 to maintain services at current levels due to a loss of federal funds, 2) \$250,000 ongoing General Fund for the Meals on Wheels program, 3) \$52,000 for an additional adult protective services investigator, 4) \$300,000 in one-time General Fund for meals to the elderly, and 5) \$250,000 one-time General Fund for transportation equipment.

Natural Resources

As a result of an unusually damaging fire season, the Division of Forestry, Fire, and State Lands exceeded the fire suppression budget by \$5.5 million. To cover these costs, the legislature appropriated \$5.5 million supplemental General Fund.

The Division of Parks and Recreation received a supplemental General Fund appropriation of \$10 million for deferred maintenance and repair costs associated with Utah state parks. According to intent language, \$2.0 million of this funding must be expended at Green River State Park.

The legislature appropriated \$300,000 in onetime General Fund to the Division of Wildlife Resources to launch the Blue Ribbon Fisheries initiative. This funding will be used to develop and enhance high quality aquatic systems for angling and aesthetic experiences.

In addition, the legislature appropriated \$400,000 one-time General Fund to the Department of Agriculture and Food. This funding will be used as grants to assist operators of animal

feeding operations to reach compliance with new guidelines and operating regulations the Environmental Protection Agency has developed.

Public Education

The Weighted Pupil Unit (WPU) is the basis for general state support for Public Education. For FY 2002 the legislature amended the Minimum School Program Act to increase the WPU from \$2,006 to \$2,116, or 5.5 percent. This equals the percentage increase in FY 2001, which was the largest real percentage increase since the hyperinflation days of the early 1980s.

The increase in the WPU will add \$89.6 million in appropriations from the Uniform School Fund (USF). The funds will be allocated to school districts for textbooks, instructional supplies, and school operations, including pay for teachers and other personnel. Actual compensation packages for teachers will be determined in negotiations between local school districts and teacher organizations.

With the increase in the value of the WPU, state funding for class size reduction in grades K through eight will increase by \$3.3 million. Since Governor Leavitt took office, the appropriation has grown from \$4.4 million for FY 1993 to \$62.6 million for FY 2002, an increase of 1,326 percent.

In other amendments to the Minimum School Program (MSP), the legislature collapsed over 20 specific programs into block grants in the areas of accelerated learning, at-risk students, applied technology, and professional development, plus a large local discretionary block grant and \$3.9 million to hold harmless districts that would otherwise lose funding under the new system. As a result, local school boards and officials will have more flexibility to meet local needs and more responsibility for the results.

Fiscal year 2002 appropriations to the MSP included \$9.9 million USF to fund the governor's new initiative to train, attract, and retain highly

qualified secondary teachers of mathematics, science, and computer science. Grants of up to \$20,000 per teacher and scholarships to prepare outstanding teachers will be awarded competitively to persons who agree to teach these subjects in Utah secondary schools for at least four years.

The state's strong emphasis on reading and literacy was further strengthened for FY 2002 through USF appropriations. Alternative language services received an increase of \$200,000, highly impacted schools received \$250,000, a University of Utah clinic for children with reading problems received \$450,000 one-time, and the Read-to-Me project received \$300,000 one-time. A new pilot project to develop ways to keep high-performing students interested in reading was given a one-time appropriation of \$500,000 USF as well.

The FY 2002 appropriations provided dramatic increases in USF for professional development of teachers and for school textbooks, supplies, and equipment. Two extra days for professional development were funded with \$10 million, and \$2.8 million one-time funding was added for additional professional development.

Other one-time USF appropriations will provide public schools with \$8.3 million for educational technology initiatives, \$1.4 million for applied technology equipment, \$3.8 million for library materials and supplies, \$5.0 million to reimburse teachers for their purchase of classroom supplies, and \$23.8 million to replace outdated and badly worn textbooks.

In addition to increases in appropriations for maintenance and operation of schools, the MSP amendments increased state assistance for school building construction by \$10 million to a total of \$38.4 million USF.

Enhancements to the Utah State Office of Education include \$4.0 million more USF for the emerging state system for regular assessment and reporting of student progress. This is in addition to \$3.5 million in existing funds for the program

that will be transferred from the MSP to the state office.

Funding was also increased for persons with disabilities. For example, an increase of \$650,000 USF was provided to the Office of Rehabilitation to expand training for persons with hearing or visual impairments, \$238,600 USF was added to fully fund three Centers For Independent Living that were recently established, and the Utah Schools for the Deaf and Blind received \$400,000 USF to improve rural outreach to children with visual and hearing impairments.

Public Safety

Police Officer Standards and Training (POST) received an appropriation of \$88,900 for a special investigator to review and recommend appropriate corrective action against any sworn officer who is found to have abused his authority while enforcing the law, and the Driver License Division received \$400,000 from the Public Safety Restricted Fund to hire nine additional driver license examiners.

An appropriation of \$152,800 from the General Fund and \$127,200 from the Transportation Fund was received by the Utah Highway Patrol (UHP) for expansion of laptop technology to two additional UHP sections. The Department of Human Resource Management also received an appropriation of \$1.0 million to address critical compensation issues among troopers in the UHP.

Tax Cuts

The legislature passed several bills providing approximately \$25 million in tax cuts:

HB 78, Sales and Use Tax - Sales Relating to Schools, \$337,000;

HB 98, Enterprise Zone Amendments, \$300,000;

HB 110, Sales Tax Refund for Qualified Emergency Food Agencies, \$6,500;

- HB 261, Sales and Use Tax Exemption Scrap Recyclers, \$105,800;
- SB 34, Individual Income Tax Relief for Lowincome Individuals and Related State Tax Commission Amendments, \$800,000;
- SB 36, *Individual Income Tax Bracket Adjustments*, \$18.0 million;
- SB 49, Aviation Fuel Tax, local impact only;
- SB 58, Repeal of Nursing Facilities Assessment, \$4.4 million;
- SB 71, Tax Credits for Special Needs Adoptions, \$256,000;
- SB 114, Sales and Use Tax on Public Accommodations and Services Taxed by Tribes, \$154,700; and
- SB 174, Sales and Use Tax Exemption for Semiconductor Fabricating or Processing Materials, 1 \$46,800.

In particular, Senate Bill 36, Individual Income Tax - Bracket Adjustments, rebrackets income tax brackets to generate an \$18 million tax cut for individual income taxpayers. The top bracket is increased from \$7,500 to \$8,626, and the bottom bracket is increased from \$1,500 to \$1,726. This allows individuals to generate larger incomes without being bumped into a higher tax bracket. Senate Bill 34, Individual Income Tax Relief for Low-income Individuals and Related State Tax Commission Amendments, removes about 30,000 low-income individuals from state income tax rolls. Individuals with an adjusted gross income less than the sum of the individual's personal exemptions plus the standard deduction are now exempt from paying state income taxes. Also, Senate Bill 71, Tax Credits for Special Needs Adoptions, provides a nonrefundable tax credit of

\$1,000 a year to any taxpayer who adopts a child who has a special need.

House Bill 370, *Hazardous Waste Amendment*, requires waste storage facilities to pay fees and taxes similar to their competitors in other states. Fees and taxes apply to the reprocessing, treatment, or disposal of certain types of radioactive waste. The act imposes fees of 10 cents per cubic foot and \$1 per curie on waste, levies gross receipts taxes between 5 and 10 percent on new contracts, and creates a perpetual fund (\$400,000 per year) to cover costs of cleanup in 30 years once a firm closes.

Transportation

The legislature approved the scheduled \$12 million ongoing General Fund increase to the Centennial Highway Fund for FY 2002. In addition, the legislature appropriated an additional \$20 million ongoing General Fund to the Centennial Highway Fund. This \$20 million restored the base reduction of \$20 million General Fund approved last session. The legislature also passed Senate Bill 2, 2001 General Obligation Bond and Capital Facilities Authorizations, which authorizes \$126.3 million for highway bonds. Should Legacy Parkway in Davis County commence construction in FY 2002, these bond funds will be needed for construction costs.

The legislature approved \$3.8 million from the Transportation Fund to properly maintain the additional lane miles added by the reconstruction of Interstate 15 from 10600 South to 600 North in Salt Lake City and for the two additional lanes already in use on Interstate 15 from North Salt Lake to the Junction of U.S. 89 in Farmington. These funds will be used to hire 21 additional personnel to do preservation and routine maintenance. Also approved was \$1.1 million in one-time Transportation Fund to purchase equipment and trucks for these 21 additional maintenance personnel.

The Division of Aeronautics received an appropriation of \$2.2 million one-time General Fund to assist rural airports with much needed maintenance work.

¹ Passed with delayed impact in FY 2003 and phased in at 10%, 50%, and 100% (FY 2003 impact \$46,800)

| Rural Development Fund | 150 | 142 | 142 | 142 | 14 |
| Subtotal Statutory Appropriation | 150 | 1,750 | 3,850 | 2,500 | 4,60 |
| TOTAL BONUS ALLOCATION | \$4,210 | \$6,550 | \$4,750 | \$7,357 | \$5,50 |
| Ending Balance | \$1,741 | (\$154) | \$896 | (\$961) | \$89 |
| TOTAL ALLOCATION | \$38,726 | \$34,416 | \$43,500 | \$42,604 | \$42,50 |

⁽¹⁾ Authorized FY 2001 is based on legislative appropriations from the 2000 General Session, supplemental appropriations from the 2001 General Session, plus statutory allocations.

Table 5 shows the actual, authorized and estimated allocation of Mineral Lease revenue. This revenue comes from mineral leases on federal lands in Utah. Statutory allocations are set by formula. Discretionary allocations are made from revenues in excess of those allocated by formula.

⁽²⁾ Estimated FY 2001 is based on the formula allocations and appropriations outlined in statute, and the estimated revenue projections for FY 2001.

⁽³⁾ Authorized FY 2002 is based on legislative appropriations from the 2001 General Session, plus statutory allocations.

⁽⁴⁾ Estimated FY 2002 is based on the formula allocations and appropriations outlined in statute, and the estimated revenue projections for FY 2002.

⁽⁵⁾ Appropriations are mandated by statute for these programs based upon pre-determined percentages.

⁽⁶⁾ Statutory allocations are mandated by statute for these purposes based upon pre-determined percentages, and are not included in the appropriation acts.

^{*} Includes Uniform School Fund and Income Tax Revenue for Higher Education

Table 9 shows the combined operations and capital budgets for General Fund and school funds by department. It is a summary of the department tables found in the Appropriations by Department section. Debt Service, however, is shown as a total and is not allocated to the departments.

⁽¹⁾ Reflects the use of one-time General Fund for capital projects in both FY 2001 and FY 2002. Also reflects an increase of \$42.1 million of ongoing General Fund and school funds for capital projects in FY 2002.

⁽²⁾ FY 2002 includes \$3.6 million schools funds for an equalization formula and \$2.6 million in one-time school funds for equipment.

⁽³⁾ FY 2001 includes \$8.8 million one-time General Fund to replenish and recapitalize the Industrial Assistance Fund. FY 2002 includes \$9.7 million in one-time General Fund for economic development projects.

⁽⁴⁾ FY 2001 includes \$7.5 million one-time General Fund for Olympic advertising, promotion, and government services.

⁽⁵⁾ FY 2002 includes \$4.4 million General Fund to replace the nursing facilities tax, plus full funding of increases in Medicaid inflation, the federal match rate, and utilization.

⁽⁶⁾ FY 2001 includes \$133.4 million one-time school funds for seven new buildings and a new heat plant.

⁽⁷⁾ Reflects the transfer of the Veterans' Cemetery to the National Guard from the Division of Parks and Recreation.

⁽⁸⁾ FY 2001 includes one-time General Fund of \$10 million for park repairs and \$5.5 million for fire fighting costs.

⁽⁹⁾ FY 2001 includes the scheduled \$12 million General Fund increase for the Centennial Highway Fund. FY 2002 includes both the scheduled \$12 million General Fund increase for the Centennial Highway Fund, plus \$10 million one-time General Fund for a UTA grant for corridor preservation.

⁽¹⁰⁾ FY 2002 reflects a \$25 million decrease in required bond repayments from the General Fund.

- (1) Reflects the use of one-time General Fund and restricted funds for capital projects in both FY 2001 and FY 2002. Also reflects an increase of \$42.1 million of ongoing General Fund and school funds for capital projects in FY 2002.
- (2) FY 2002 includes \$3.6 million school funds for a funding equalization formula and \$2.6 million in one-time school funds for equipment.
- (3) FY 2001 includes \$8.8 million one-time General Fund to replenish and recapitalize the Industrial Assistance Fund. FY 2002 includes \$9.7 million in one-time General Fund for economic development projects.
- (4) FY 2001 includes \$7.5 million one-time General Fund for Olympic advertising, promotion, and related government services.
- (5) FY 2001 and FY 2002 include an increase over FY 2000 of \$6.7 million in federal funds for environmental site remediation.
- (6) FY 2001 includes \$133.4 million one-time school funds for seven new buildings and a new heat plant.
- (7) FY 2001 includes an increase in General Fund for an electronic voting system in the Senate and an increase in legislators' per diem rates.
- (8) FY 2001 includes one-time General Fund of \$10 million for park repairs and \$5.5 million for fire fighting costs.
- (9) Reflects new restricted funding for oversight responsibilities regarding the transportation of nuclear waste, and federal funds for the Olympic Security Command.
- (10) Reduction in FY 2002 reflects a \$38.4 million increase in the amount of Centennial Highway Funds transferred to the Debt Service Fund to make transportation bond payments.

Table 10 shows the combined operations and capital budgets for all sources of funding by department. It is a summary of the department tables found in the Appropriations by Department section. Debt Service, however, is shown as a total and is not allocated to the departments.

Figure 1

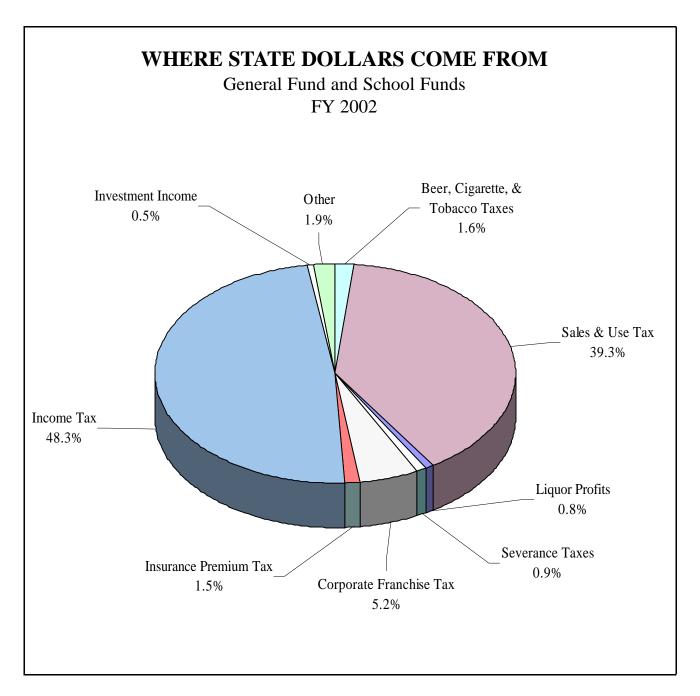

Figure 1 shows the estimated sources of state revenue (General Fund and school funds) for FY 2002.

Figure 2

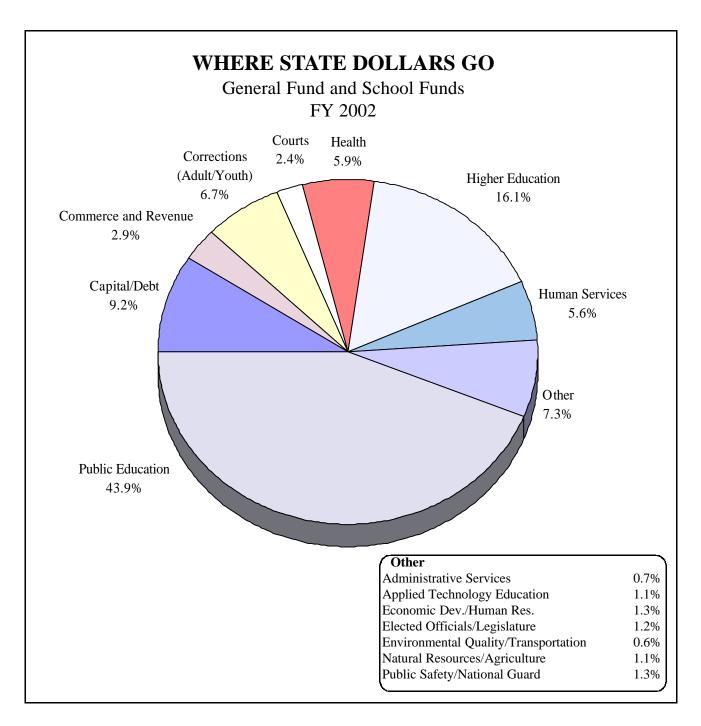

Figure 2 shows how state funds (General Fund and school funds) will be expended in FY 2002. The largest portion, amounting to 61.1 percent goes to Public, Higher, and Applied Technology Education.

Figure 3

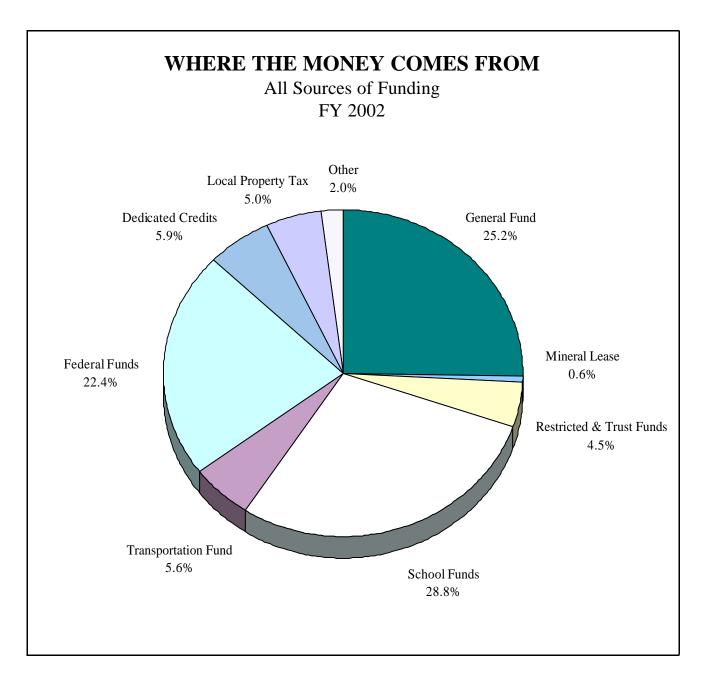

Figure 3 shows the total estimated sources of revenue for FY 2002. The General Fund and school funds, consisting primarily of sales and income taxes, generate over one-half (54.0 percent) of the total state budget.

Figure 4

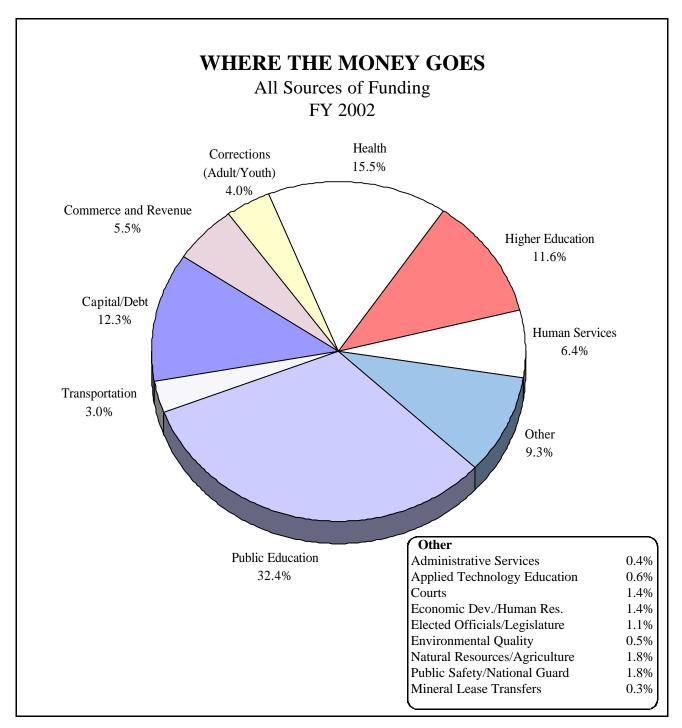

Figure 4 shows total state budget expenditures for FY 2002 from all sources of funding. Public, Higher, and Applied Technology Education receive nearly half of total state resources.

Figure 5

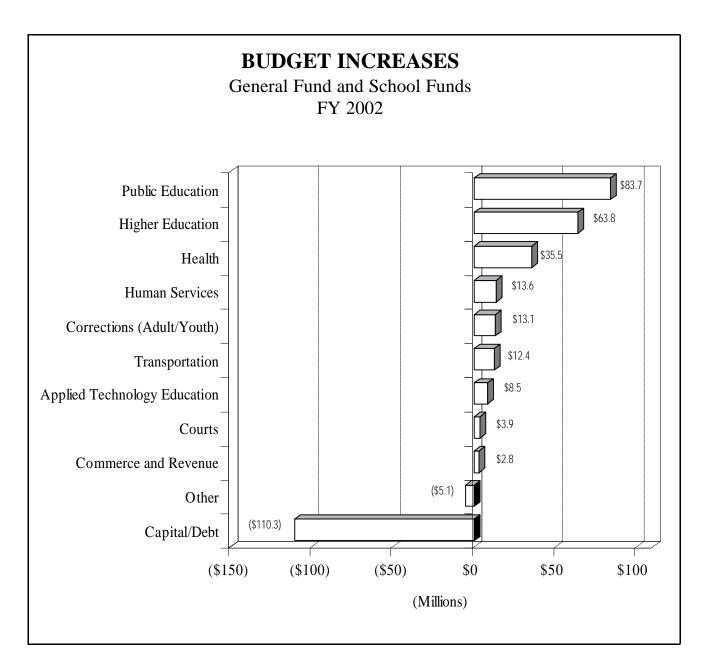

Figure 5 reflects changes from FY 2001 to FY 2002 in General Fund and school funds including one-time and supplemental appropriations for both years.

State of Utah

Operating and Capital Budgets by Department

This section summarizes legislative action by department and shows a three-year comparison of funding for operational and capital budgets. It also includes legislative intent statements for FY 2002 and FY 2001 supplemental appropriations.

ADMINISTRATIVE SERVICES

Randa Bezzant, Analyst

Overview

Administrative Services includes the Capitol Preservation Board and the Department of Administrative Services. The Capitol Preservation Board plans and directs the state capitol building restoration project and oversees ongoing maintenance of all facilities on Capitol Hill. The Department of Administrative Services provides support services to other agencies in an effort to eliminate unnecessary duplication of activities within state government.

Appropriated programs within Administrative Services include the Executive Director, Administrative Rules, Archives, Facilities Construction and Management, Finance, Fleet Operations, Information Technology Services (ITS), and Purchasing. Administrative Services also includes several internal service funds that charge agencies for goods and services on a cost-reimbursement basis. Internal service fund budgets are presented in a separate section of this document.

The Division of Finance receives funding for a number of statewide issues that are either mandated by law or necessitated by litigation. Such issues include indigent defense, 800 megahertz (MHz) radios, critical land conservation accounting, Information Technology Innovation Fund, and payroll mandated accounting.

The total FY 2002 operating appropriation for the Capitol Preservation Board and the Department of Administrative Services is \$24,867,300 and includes \$26,932,700 from the General Fund plus \$7,626,600 in transfers out to other funds. The FY 2002 funding level is an increase of 3.7 percent in General Fund and an increase of over 6.1 percent in total funding from the prior year.

Highlights

Archives

Archives received \$100,000 ongoing General Fund to improve employee retention through enhanced salaries and \$33,000 to lease space for record storage.

Finance - Mandated - Other

The legislature appropriated \$1,414,900 from the General Fund to purchase 800 MHz radios and monthly service from the Utah Communications Agency Network (UCAN). Funds will be disbursed by the chief information officer to the Department of Corrections, the Department of Public Safety, and other state agencies that will operate over 3,000 radios on UCAN's system.

Lawmakers provided \$500,000 from the General Fund as additional seed money for the Information Technology Innovation Program within the state's Chief Information Office. Funds will be used to develop cost-saving IT applications throughout state government.

House Bill 68, Annual Leave Conversion for State Employees, enacted certain provisions regulating the conversion of annual leave to a deferred compensation plan. Employees who have in excess of 320 hours of annual leave at year-end may convert the value of their excess leave up to

20 hours, based upon their hourly rate, to their deferred compensation plan. The bill caps the amount that can be converted at \$250. The Division of Finance will use the \$642,600 appropriation to reimburse state agencies on a proportional basis as determined by the division.

Senate Bill 171, *State Retirement Formula Changes*, modified the Utah State Retirement Act to authorize an additional retirement benefit to certain retirees. It increases the multiplier rate for years of service prior to July 1967 from 1.1 to 1.25. The Division of Finance was appropriated \$752,200 to implement this bill.

ITS - Automated Geographic Reference Center (AGRC)

AGRC received \$500,000 one-time General Fund for mapping and documentation projects. Part of this is to establish rural survey control corners and to enable digital parcel mapping.

Legislative Intent Statements

House Bill 1

FY 2002, Item

50 The Capitol Preservation Board Executive Director shall develop a master security plan for Capitol Hill before the 2002 General Session.

> Funds for the Capitol Preservation Board are nonlapsing, and any nonlapsing funds are to be used for the design and construction costs associated with capitol restoration.

Any person, group, or organization holding an event in the Capitol Building or on Capitol Hill grounds shall pay for at least the costs associated with staging the event. Any increases in dedicated credits over the FY 2002 approved amount shall be used to offset costs related to capitol restoration.

- 54 The Building Board shall develop contracting guidelines that enable the state to share in the ownership of designs and plans associated with the construction of state-owned buildings.
- Archives shall use \$100,000 to improve employee retention through enhanced salaries for any non-exempt position within the division that is demonstrated to have high turnover or below market wages. The funds may not be used to add additional staff.

Funds for Archives are nonlapsing, and any nonlapsing funds are to be used to catalog documents generated by former governors.

57 Funds for Finance are nonlapsing, and any nonlapsing funds are to be used for maintenance, operation, and development of statewide accounting systems.

Rules regarding reimbursement for mileage driven in a personal vehicle on state business continue as approved during FY 2001.

Funds in the LeRay McAllister Critical Land Fund are nonlapsing.

Funds provided for 800 MHz conversion shall be allocated among state agencies by the chief information officer in consultation with the Information Technology Services director as follows: 1) new ongoing funds shall be distributed to agencies such that total ongoing resources for each agency are sufficient to pay annual service fees on radios purchased with prior year appropriations, and 2) one-time and remaining new ongoing funds shall be distributed to agencies for the purchase of additional radios and for annual service fees.

The chief information officer shall report to the Executive Appropriations Com-

mittee specific cost and benefit measures as well as the means by which to capture future benefits prior to allocating funds provided for the Utah Technology Infrastructure Innovation Program.

Funds in the Annual Leave Conversion Program shall be used to reimburse state agencies on a proportional basis as determined by Finance.

- Funds for the Post Conviction Indigent Defense Fund are nonlapsing.
- Funds for the Judicial Conduct Commission are nonlapsing.
- Funds for Purchasing and General Services are nonlapsing, and any nonlapsing funds are to be used for the division's E-Commerce program.

Senate Bill 3

FY 2002, Item

- The discretionary component of the FY 2002 compensation package shall be used by the Capitol Preservation Board to fund its most critical salary needs.
- The discretionary component of the FY 2002 compensation package shall be used by Administrative Services to fund its most critical salary needs.
- Funds shall be used to support rural government efforts to locate or establish survey control corners and to enable digital parcel mapping activities. This funding will go directly to rural subdivisions of the state for the protection of citizens' private property rights and public benefit through inclusion in the State Geographic Information Database. Distribution of funds by AGRC will be based on the recommendations developed after consultation with the Rural

Partnership Board and the Utah Association of Counties.

- Funds for the Annual Leave Conversion Program are nonlapsing, and Finance shall use nonlapsing funds to reimburse state agencies on a proportional basis.
- The chief information officer shall consider Human Resource Management's Utah Job Match Program when allocating funds for the Utah Technology Infrastructure Innovation Program in House Bill 1, *Appropriations Act*.

Senate Bill 1

FY 2001, Item

- Funds for Archives are nonlapsing, and any nonlapsing funds are to be used to catalog documents generated by former governors.
- Funds for Finance are nonlapsing, and any nonlapsing funds are to be used for maintenance, operation, and development of statewide accounting systems.
- Funds for the Post Conviction Indigent Defense Fund are nonlapsing.

Funds for the LeRay McAllister Critical Land Fund are nonlapsing.

Funds provided to Finance for 800 MHz conversion are nonlapsing, and any nonlapsing funds not used to pay service charges are to be used to purchase radio equipment.

- Funds for the Judicial Conduct Commission are nonlapsing.
- 39 Funds for Purchasing and General Services are nonlapsing, and any nonlapsing funds are to be used to further the division's E-Commerce program.

APPLIED TECHNOLOGY EDUCATION

Scott Green, Manager of Budget and Policy Analysis

Overview

The total FY 2002 operating budget for Applied Technology Education (ATE) is \$46,185,700, a 22.4 percent increase over FY 2001. General Fund and school funds account for \$42,292,200, or 91.6 percent, of the total budget. The remainder is dedicated credits generated mostly from tuition. For FY 2002, ongoing General Fund and school funds for ATE increased \$6,347,800, or 19 percent above the base budget.

Highlights

The ATE system received \$3,609,700 in school funds for an equalization formula that creates more equity across applied technology centers and service regions. Over 57.7 percent of this new funding is appropriated to rural applied technology centers and service regions.

ATE also received \$3,400,000 in new school funds for equipment, including \$2,600,000 one-time. Custom Fit training received an additional \$500,000 ongoing school funds as well.

The legislature also appropriated funds for three ATE capital items. These include the following: 1) a \$500,000 land purchase for the Ogden-Weber Applied Technology Center, 2) a \$186,000 land purchase in Vernal for the Uintah Basin Applied Technology Center, and 3) a \$2,741,000 purchase of land and facilities that are currently being leased by the Bridgerland Applied Technology Center in Brigham City.

Future Issues

ATE governance was a major issue during the 2001 General Session. At issue is whether ATE should continue to be governed by Public Education, transferred to Higher Education, or governed by an independent board. The governor has stated he will call a special session of the legislature in 2001 to resolve this issue. ATE is presented in its own department section in this summary book pending the outcome of the governance issue.

Legislative Intent Statements

House Bill 1

FY 2002, Item

- 79 The state shall provide equal applied technology education opportunities for students in Tooele and Salt Lake counties, encourage Wasatch Applied Technology Center to develop new facilities by acquiring and remodeling existing Public and Higher Education facilities that become available, and provide funding for their operations and maintenance costs consistent with other applied technology centers throughout the state.
- Any salary increases to faculty, professional, and classified employees will be distributed in an equitable manner.

Senate Bill 3

FY 2002, Item

50 - 54 The discretionary component of the Fiscal Year 2002 compensation package

will be used to fund the most critical salary needs.

The \$1,000,000 appropriated to Development will be used to purchase equipment.

COMMERCE AND REVENUE

John Nixon, Analyst

Overview

Commerce and Revenue consists of state agencies that encourage employment, provide temporary assistance, collect taxes, and maintain an appropriate balance between business development and regulation. These agencies include the Labor, Public Service, and Tax commissions and the departments of Alcoholic Beverage Control, Commerce, Financial Institutions, Insurance, and Workforce Services.

The total FY 2002 Commerce and Revenue appropriated budget is \$394,030,300, a 1.8 percent increase over FY 2001.

Federal funds account for \$199,028,000 or 50.5 percent of the total budget. The majority of federal funds go to Workforce Services for employment and financial assistance programs.

State funds are 28.5 percent of the total budget and consist of \$94,917,000 in General Fund and \$17,375,000 in school funds. This represents an increase of 2.6 percent over the FY 2001 authorized budget.

Highlights

Federal funding of \$7,000,000 in FY 2001 and \$16,000,000 in FY 2002 was appropriated to the Department of Workforce Services to provide employment training services, family stabilization services, child care quality services, housing services, transportation services, youth program services.

vices, and computer enhancements and employee training. These services are for people who are eligible for the Temporary Assistance for Needy Families (TANF) program. These funds will also be used to provide a 5.0 percent increase in the grant amount that TANF participants receive each month.

Critical staffing needs were also addressed in the FY 2002 budget. The additional positions that were appropriated include the following: eleven to Alcoholic Beverage Control to help keep up with increased sales; four to the Commerce Department to address increased work loads in both the Corporations and Securities' divisions; ten financial examiners to the Department of Financial Institutions; four to the Insurance Department; one information technology position to the Labor Commission; and one to the Public Service Commission to coordinate a hearing impaired awareness campaign.

Alcoholic Beverage Control received additional funding of \$366,000 restricted fund to complete its e-commerce initiative and to purchase needed warehouse equipment. It also received an appropriation of \$325,100 restricted fund for packaging agency contracts. Packaging agencies are organizations that have contracts with the state to sell liquor in remote areas.

The Labor Commission received an additional appropriation of \$100,000 restricted fund in FY 2001 and \$190,000 in FY 2002 to promote its Workplace Safety Campaign.

Future Budget Issues

As allowed by federal law, the state has utilized excess federal TANF funds the past three years to partially meet increased demand for child care. This TANF funding should remain constant until the end of FY 2002, at which time the grant is up for renewal. There is no guarantee after FY 2002 that the TANF grant will be sufficient to continue funding child care. The child care grant will also be renewed at the end of FY 2002. As a result, the state will need to follow the reauthorizations of both programs closely, and depending on the outcome of the reauthorizations, the state may need to add more General Fund to child care in FY 2003.

Employee turnover continues to be a serious concern for many agencies within Commerce and Revenue, particularly in Alcoholic Beverage Control. Alcoholic Beverage Control competes closely with the private sector for retail sales clerks and managers. Funding for selective salary increases may be necessary to preserve the number of appropriately trained staff.

Legislative Intent Statements

House Bill 1

FY 2002, Item

73, 74, 84, 88-90, 93-95, 96-99

Funds appropriated for FY 2002 are nonlapsing and include appropriations to the following: 1) Tax Commission for License Plate Production and Liquor Profit Distribution; 2) Workforce Services; 3) Commerce for Real Estate Education, Public Utilities Professional and Technical Services, and Committee of Consumer Services Professional and Technical Services; 4) Insurance for Comprehensive Health Insurance Pool, Bail Bond Surety, and Title Insurance Program; 5) Public Service Commission; and 6) Public Service

Commission for Research and Analysis, Speech and Hearing Impaired, and Universal Telecommunications Service Fund.

72 The Tax Commission may carryforward unexpended year-end balances for costs directly related to the modernization of tax and motor vehicle systems and processes.

The Tax Commission shall report to the Executive Appropriations Committee before expending significant additional resources in pursuit of tax systems enhancement or replacement.

The Tax Commission shall track additional revenues resulting from UTAX and report quarterly to the Office of the Legislative Fiscal Analyst, the Governor's Office of Planning and Budget, and the Division of Finance.

The Tax Commission shall provide to the Commerce and Revenue Appropriations Subcommittee during the FY 2001 interim a full cost analysis of the Motor Vehicle Administration system. The analysis should include, but is not limited to, costs associated with planning, development, contracting, testing, data conversion, implementation, operation, and disposal.

The Tax Commission may outsource accounts according to 59-1-1101 UCA that are not in litigation, not under a payment agreement, not assigned to a collector for active collection, or whose outsourcing would not be in violation of state or federal law. The Tax Commission shall report the results of its outsourcing to the Office of Debt Collection, the Governor's Office of Planning and Budget, and the Office of the Legislative Fiscal Analyst.

Workforce Services shall report monthly its Food Stamp error rate to the legislature through the Office of the Legislative Fiscal Analyst and to the Governor's Office of Planning and Budget. Corrective actions taken by the department shall be reported at the next interim meeting of the Commerce and Revenue Joint Appropriations

Subcommittee.

The legislative fiscal analyst shall do an in-depth budget review of the Office of Child Care and report it at the next interim meeting of the Commerce and Revenue Joint Appropriations Subcommittee.

Workforce Services shall include for consideration in its annual budget submission to the Governor's Office of Planning and Budget sufficient funding for grant adjustments based on its annual review of the TANF grant and other funding sources. The department shall consider the availability of these funds for ongoing and one-time use.

Workforce Services shall do an annual review of the Family Employment Program (FEP) case assistance grant levels to determine the adequacy of those grants in helping families meet basic living expenses (housing, utilities, and food). The department shall consider the TANF grant and other funding sources while conducting this review, and shall consider the funds available for ongoing and one-time use.

Workforce Services shall convene a group to explore ways to provide affordable health insurance to child care workers. The group should include home and center care providers, insurance companies, the small business association, and other appropriate enti-

ties. The department shall report its results to the Commerce and Revenue Appropriations Subcommittee as part of the department's annual presentation in 2002.

The departments of Human Resource Management and Workforce Services shall coordinate their Utah Job Match and UWORKS projects such that they leverage common elements and functions. The agencies shall report to the Office of the Legislative Fiscal Analyst during the 2001 interim results of their coordination efforts.

- Fees collected by the Labor Commission for sponsoring and holding seminars are nonlapsing.
- Winexpended fund balances of the Committee of Consumer Services may be transferred from its administrative budget for FY 2001 to its Professional and Technical Services budget for the same year, and the transferred funds are nonlapsing.

Senate Bill 3

FY 2002, Item

- 49, 66, 67, 68, 73, 74, 77, 79

 The discretionary component of the FY 2002 compensation package may be used by the department to fund its most critical salary needs.
- 73 The physical location of the Committee of Consumer Services shall be separated from the Division of Public Utilities and the Public Service Commission. This separation shall be to a different building, or at least, to a different floor if remaining in the same building. This separation is to be completed by January 1, 2002.

FY 2001, Item

The physical location of the Committee of Consumer Services shall be separated from the Division of Public Utilities and the Public Service Commission. This separation shall be to a different building, or at least, to a different floor if remaining in the same building. This separation is to be completed by January 1, 2002. The \$20,000 appropriated for the Committee of Consumer Services to make this separation is nonlapsing.

Senate Bill 1

FY 2001, Item

The Tax Commission may carryforward unexpended year-end balances for costs

- directly related to the modernization of tax and motor vehicle systems and processes.
- Fees collected by the Labor Commission for sponsoring and holding seminars are nonlapsing.
- 47 Unexpended fund balances of the Committee of Consumer Services may be transferred from its administrative budget for FY 2001 to its Professional and Technical Services budget for the same year, and the transferred funds are nonlapsing.

CORRECTIONS (ADULT AND YOUTH)

Dave Walsh, Analyst

Adult Corrections Overview

The total FY 2002 appropriation for the Department of Corrections is \$190,179,400, a 3.3 percent increase over FY 2001. The budget includes a General Fund increase of 6.1 percent.

Adult Corrections Highlights

Adult Corrections - Institutional Operations

To house a projected increase of 324 inmates for FY 2002, additional funds were provided to expand correctional capacity. Increases included \$5,000,000 in ongoing General Fund to open the new 288-bed addition at Gunnison. The legislature also enacted House Bill 181, *Penalties for Soliciting Minors*, which added \$23,000 in ongoing General Fund to pay for increased costs associated with upgrading penalties for soliciting minors for sexual activity.

As a part of the annual appropriation for institutional operations, the legislature moved the funding for jail contracting from the jail program line item to the institutional line item to allow greater flexibility within the department. The legislature approved an FY 2001 General Fund supplemental of \$2,092,000 for the payment of housing inmates in jails throughout the state but did not approve additional funding for FY 2002. The legislature also enacted House Bill 337, *Governmental Law Amendments*, which requires the Department of Corrections to receive the approval of the legislature before contracting with

a county government to house inmates in facilities not currently under construction or in existence. As part of this requirement, the legislature enacted House Joint Resolution 14, *Resolution Supporting Counties' Expansion of Correctional Facilities*. This resolution supports jail expansion in Beaver, Cache, Emery, Millard, Sanpete, and Uintah counties for housing additional state prisoners.

Adult Corrections - Field Operations

The legislature approved \$250,000 in ongoing General Fund to provide additional resources to monitor sex offenders. A portion of the funds will be used to conduct a pilot project in Salt Lake County to measure the effectiveness of using the Global Positioning System. This system will provide the opportunity to track an offender's location at all times.

In addition, the legislature enacted House Bill 18, *Interstate Compact for Adult Offender Supervision*, which provides updated procedures for movement of adult parolees and probationers across state lines. This act takes effect the later of July 1, 2001, or upon the enactment of the compact into law by the 35th jurisdiction, in accordance with the compact provisions.

Adult Corrections - Jail Reimbursement

Effective for FY 2001, funding for jail reimbursement was placed back into a separate line item. Jail reimbursement is given to counties to house convicted felons, who are sentenced up to

one year in a county jail as a condition of probation. The legislature also increased funding for jail reimbursement by \$500,000 in ongoing General Fund.

Board of Pardons and Parole

The total FY 2002 appropriation for the Board of Pardons and Parole is \$2,681,100, a 2.9 percent decrease compared to FY 2001. The General Fund increased by 3.4 percent. The board's budget includes \$35,000 in ongoing General Fund to provide funding for mandatory retirement costs associated with the board.

Youth Corrections and Youth Parole Authority Overview and Highlights

The total FY 2002 appropriation for the Division of Youth Corrections (DYC) and the Youth Parole Authority is \$92,410,000, a 0.8 percent increase over FY 2001. The budget represents a General Fund increase of 3.6 percent. The budget for DYC includes ongoing General Fund increases of \$910,000 to provide the remaining resources needed for full-year operation for the Richfield Youth Center. The legislature also agreed with the governor's recommendation to fund a 3.0 percent increase for privatized facilities and community providers. The total cost associated with this 3.0 percent cost-of-living adjustment is \$891,900 and is funded from ongoing General Fund. In addition, the legislature approved an increase of \$750,000 in FY 2002 and a \$702,000 supplemental for increased costs of placing juvenile offenders in community alternatives.

During the legislative session a separate line item was created for the Youth Parole Authority. For FY 2002 a total of \$410,100 was appropriated to the Youth Parole Authority, with \$390,800 coming from the General Fund.

Future Budget Issues

The Department of Corrections will require additional funding in FY 2003 for additional jail

contract beds as well as jail reimbursement. In addition, to offset the current underfunding of jail contracting, a General Fund supplemental of \$2,200,000 should be considered.

DYC will require additional funding for the placement of juvenile offenders in community alternatives. New operational funding needs for growth of adult and youth offenders, including medical expenses, could exceed \$20,000,000 in FY 2003.

Legislative Intent Statements

House Bill 1

FY 2002, Item

- Funds for Department of Corrections Administration are nonlapsing.
- Funds for Department of Corrections Field Operations are nonlapsing.
- Funds for Department of Corrections Institutional Operations are nonlapsing.
- Funds for Department of Corrections -Draper Medical Services are nonlapsing.
- Funds for Department of Corrections -Utah Correctional Industries are nonlapsing.

The Utah Correctional Industries Board is authorized to approve increases in FTE for the division where such increases will positively impact employment opportunities for the state and provide benefits to other state programs.

- 29 Funds for Department of Corrections -Jail Reimbursement are nonlapsing.
- 30 Funds for Department of Corrections Data Processing Internal Service Fund are nonlapsing.

- Funds for the Board of Pardons and Parole are nonlapsing.
- Funds for the Division of Youth Corrections are nonlapsing.

The Division of Youth Corrections should continue and, wherever possible, increase the utilization of community-based alternatives to secure incarceration of youth in the custody of the division. The legislature expressly directs the division to actively pursue additional Community Alternatives and strengthen those which are currently in effect.

Funds for the Youth Parole Authority are nonlapsing.

Senate Bill 3

FY 2002, Item

18 The discretionary component of the Fiscal Year 2002 compensation package is to be used by the Department of

- Corrections to fund its most critical salary needs.
- 19 Funds for the department are nonlapsing.
- The discretionary component of the Fiscal Year 2002 compensation package is to be used by the Board of Pardons and Parole to fund its most critical salary needs.
- 23 The discretionary component of the Fiscal Year 2002 compensation package is to be used by the Division of Youth Corrections to fund its most critical salary needs.

Senate Bill 1

FY 2001, Item

9 The O-TRACK systems development shall take priority over all other projects for allocation of carryforward balances authorized in the Division of Administration.

Courts

Dave Walsh, Analyst

Overview

The total FY 2002 budget for the Courts is \$103,004,200, a 3.2 percent increase over FY 2001. The budget includes a General Fund increase of 4.3 percent. The legislature approved a 4.0 percent compensation increase for judges beginning in FY 2002. Effective July 1, 2001, district court judges will be paid \$103,700 per year. Other judicial salaries will be calculated in accordance with statutory formulas (see page 216, Personal Services Summary).

Highlights

Administration

In September 2000 the Utah Judicial Council issued a report on Racial and Ethnic Fairness in the Legal System. This report was based on a two-year Judicial Council Task Force that had representation from the criminal and juvenile justice system. To assist in the implementation of these recommendations, the legislature appropriated \$88,000 in one-time General Fund for FY 2002. These additional resources will provide funds for a project coordinator as well as diversity training in the criminal and juvenile justice system.

Juvenile Courts

The FY 2002 approved budget for the Juvenile Court added \$170,000 in ongoing General Fund to hire three additional staff to expand the Child

Welfare Mediation Program to all eight Judicial Districts. The 2000 legislature approved \$150,000 last year to partially fund this program. The Mediation Program uses a skilled mediator as a neutral third party to assist families, the Division of Child and Family Services, and attorneys involved in Juvenile Court dependency matters with issues relating to child placement and welfare. The legislature also increased resources to expand drug courts throughout the state. A total of \$168,700 in ongoing General Fund was added to judicial resources to conduct drug courts. This appropriation for Drug Courts is in addition to the \$193,700 appropriation that was approved in FY 2001 from the Tobacco Settlement Trust Account.

District Courts

The 2001 legislature enacted four bills and appropriated \$314,600 in ongoing General Fund to assist the district courts in fulfilling the additional responsibilities outlined in the legislation.

Legislation enacted addresses the areas of driving under the influence, civil stalking, protective orders in domestic violence issues, and DNA testing for convicted offenders.

Guardian ad Litem

The Guardian ad Litem program received an additional \$520,000 in ongoing General Fund to assist in providing representation for children in cases of dependency, abuse, and neglect. Of this

amount, \$250,000 will provide additional attorney support to reduce the workload of current attorneys providing these services. Senate Bill 117, *Guardian ad Litem Amendments*, amends provisions related to guardians ad litem. A key component of this bill gives the courts the discretion to appoint a private attorney guardian ad litem in visitation and custody cases. The bill also allows the Guardian ad Litem Office to hire and train investigators to help in resolving child custody cases. A total of \$270,000 in General Fund was added to assist in this new function.

Jury and Witness Fees

For FY 2002, the legislature approved a General Fund supplemental of \$600,000 for Jury and Witness fees. Historically, the appropriation for this line item has been inadequate. During FY 2000 the line item was overspent in excess of \$1,000,000.

Contracts, Leases, and Capital Projects

For FY 2002, the legislature approved an additional \$1,125,000 in ongoing General Fund to cover increased costs associated with contracts and leases.

The legislature also approved funding for the construction of a new court facility in Logan at a cost of \$12,493,800. Of this total amount, \$11,793,800 will come from the General Fund and \$700,000 from the Courts Complex Restricted Account.

Future Budget Commitments

Based on action by the 2001 legislature, it is anticipated that approximately \$600,000 in supplemental funds will be needed for FY 2002 for juror and witness fees. Additional funding will also be needed in FY 2003 for lease expenses.

Legislative Intent Statements

House Bill 1

FY 2002, Item

Funds for Courts are nonlapsing.

For every \$50,000 in accumulated fiscal note driven costs to the courts in any given year, the courts are authorized an additional clerk FTE. These FTE clerk increases are to be included in all subsequent budget submittals under the appropriate appeals, trial, or juvenile court program budget category.

The Utah Substance Abuse and Anti-Violence Council (USAAV) will initiate, through its Treatment Committee, a review and evaluation of Utah's substance abuse treatment programs for criminal justice referrals. An in-depth process and outcome evaluation of drug courts and other treatment programs within the Department of Corrections, local county jails, and other treatment settings should be conducted. The research should assess the current demand for treatment and availability of programs and resources, review the programmatic and cost effectiveness of current programs, and make recommendations for best practices to maximize treatment availability. Funding will be provided through current appropriations and federal grants to USAAV and the Division of Substance Abuse. Findings and recommendations will be submitted to the Judiciary Interim Committee and the Law Enforcement and Criminal Justice Joint Appropriations Committee in October 2001 and to the Executive

Office and Criminal Justice Joint Appropriations Committee during January 2002.

Up to \$152,800 in funds received by the Courts pursuant to Tile IV-D of the Social Security Act, will be used to fund the creation of a domestic relations court commissioner position and related staff in the Fourth Judicial District and for other child support entities.

Funds for the Judicial Council/State Court Administrator - Contracts and Leases are nonlapsing.

- Funds for the Judicial Council/State
 Court Administrator Grand Jury are
 nonlapsing.
- Under provisions of Section 67-6-2 UCA, the following salaries are approved for judicial officials for July 1, 2001 to June 30, 2002: District Court Judge \$103,700. Other judicial salaries will be calculated in accordance with the statutory formula and rounded to the nearest \$50.
- Funds for the Judicial Council/State
 Court Administrator Guardian ad
 Litem Program are nonlapsing.

ECONOMIC DEVELOPMENT AND HUMAN RESOURCES

Megan Hough, Analyst

Overview

The Economic Development and Human Resources budget includes the Department of Community and Economic Development (DCED), Utah State Fair Corporation, Utah Technology Finance Corporation, Department of Human Resource Management, and Career Service Review Board. The new ongoing base budget is \$36,406,100, which represents a General Fund increase of 3.7 percent over FY 2001. Fiscal year 2002 one-time appropriations from the General Fund total \$9,821,300. Fiscal year 2001 supplemental General Fund appropriations total \$11,583,400.

Highlights

Industrial Assistance Fund

As required by law, a General Fund supplemental appropriation of \$1,900,900 was made to replenish the fund for credits exchanged as loan payments. An additional \$6,863,700 General Fund was appropriated to further capitalize the fund to take advantage of the economic development opportunities presented by the Olympics.

Custom Fit Targeted Recruitment

The legislature provided one-time General Fund appropriations of \$1,500,000 for Custom Fit as a recruitment and retention incentive for business relocation and expansion. These funds will

also be used to provide targeted training for employers in Utah to keep their workforce trained and skilled in today's workplace.

Utah/Silicon Valley Alliance

The legislature appropriated \$1,000,000 in one-time General Fund and \$300,000 in supplemental restricted funds for the Utah/Silicon Valley Alliance initiative. These funds will be used to entice high-tech firms to "grow-out" in Utah and to provide matching grants for rural communities to build smart space for the relocation of high-tech firms.

Homeless/Housing Trust Funds

Ongoing General Fund for the Olene Walker Housing Trust Fund increased by \$500,000 to bring the base budget to a total of \$2,725,000. The legislature also provided \$300,000 one-time General Fund to the trust fund. Additionally, a one-time General Fund appropriation of \$50,000 was provided for the Emergency Food Network.

State Office of Museum Services

The State Office of Museum Services Grants program budget was significantly increased through the funding of House Bill 212, *Museum Educational Initiative*. Museum Services will receive \$1,000,000 General Fund for technical and general assistance grants to locally operated museums.

Olympics

The legislature appropriated \$7,500,000 supplemental General Fund to the State Olympic Officer for Olympic related activities (see Elected Officials section). This appropriation includes \$4,000,000 for DCED to use the Olympics as a catalyst to promote tourism and business development in Utah.

Legislative Intent Statements

House Bill 1

FY 2002, Item

100-102, 109, 110, 112, 114-116 Funds are nonlapsing.

101, 102, 104-112, 114-116

The division will develop performance measures for each program and, where possible, prepare a five-year history of those measures for the 2002 General Session.

101 The departments of Human Resource
Management and Workforce Services
will coordinate their Utah Job Match
and UWORKS projects such that they
leverage common elements and functions. These agencies will report to the
Office of the Legislative Fiscal Analyst
during the 2001 interim on the results of
their coordination efforts.

If the legislature funds a general compensation pool for statewide salary inequities, the pool will be applicable to attorneys consistent with other state employees, subject to review of General Counsel.

Compensation intent language is superseded in Senate Bill 3, *Supplemental Appropriations Act II*, line item 81. The FY 2002 market comparability adjustments funding will be allocated to and administered by the Department of Human Resource Management.

Health benefits for state employees are funded on the basis of a 16.1 percent average health premium increase. Dental premium costs for the Group Insurance Division (PEHP) are to be computed on the basis of an average 3.0 percent increase.

Employees enrolled in the PEHP Preferred health care plan will pay 7.0 percent of the bi-weekly premium payments.

The FY 2002 compensation package for state employees will have retrospective application to June 23, 2001, to coincide with the state payroll period.

The appropriation of \$79,000 will go towards the purchase of a Unix server.

Funding for Special Opportunities will be used only for economic development opportunities.

The division will use \$1,000,000 of appropriated funds for the Silicon Valley initiative.

The division will use \$200,000 of appropriated funds for the Manufacturing Extension Program.

The division will use \$1,250,000 of appropriated funds for the Sports Incentive Fund.

The division will use \$1,000,000 of appropriated funds for the Ogden Hightech Center.

The division is allowed to rent space in their facility for the 2002 Olympics.

The division shall not spend collected funds from this activity until after the legislature approves a spending plan in the 2002 General Session.

The division will use \$200,000 of appropriated funds for Heritage Area Corridors.

- The division will use \$25,000 of appropriated funds for the Fine Arts Museum.
- The division will use \$2,000,000 of appropriated funds for the new Children's Museum. This funding will be matched with \$20,000,000 from Salt Lake County.

The division will use \$200,000 of appropriated funds for a Homeless Youth Resource Center.

The division will use \$100,000 of appropriated funds for the Commission on Volunteers - Literacy Program.

The division will use \$50,000 of appropriated funds for Weatherization federal match requirements.

The division will use \$50,000 of appropriated funds for the Emergency Food Program.

120 Proceeds in excess of \$4,000,000 paid to the state from the liquidation of Utah Technology Finance Corporation, whether these proceeds come from cash, sale of real property, or collection of accounts receivable, are to be deposited in the Industrial Assistance Fund.

Senate Bill 3

FY2002, Item

- 80-82 The discretionary component of the Fiscal Year 2002 compensation package will be used by the department to fund its most critical salary needs.
- 81 The intent statement in House Bill 1. Appropriations Act, beginning on page 37, line 1359 through 1365, will be replaced with a statement indicating that the 4.0 percent compensation package will be used for the following: 1) to fund one-step merit increase and associated salary driven costs for all eligible employees, and 2) to fund one-time bonuses to employees in longevity, regardless of other pay advances, at a rate of \$500 for above standard performance or \$700 for exceptional performance. Remaining funds are for discretionary salary increases to employees based upon performance and other salary related issues according to rules and procedures established by the Department of Human Resources.

Basic Group Term-Life Coverage increase to \$25,000 will be funded.

Highway Patrol minimum monthly salary will be increased to \$2,500 as revenues allow.

For calendar year 2001, the vacant position report due by September 1 as required by 67-19-6(1)(1) UCA shall contain the following:

1. All positions vacant for six consecutive months or more during the 12 month period prior to March 1, 2001;

- 2. All positions filled between March 1 and August 1, 2001 that were vacant longer than six months on March 1, 2001;
- 3. The reasons for the vacancies as of August 1, 2001;
- 4. The reasons for the inability to fill the position;
- 5. Future plans for the position;
- Funding sources for each position, taking into consideration any reductions or employee savings in the budgetary process;
- 7. Identification of positions that were created as part of a federally funded or mandated program for which no or reduced federal funding is available; and
- 8. A response from each department about which positions should be eliminated, transferred, or filled, and the reasons why.

The report shall be organized by department, and the Office of Legislative Fiscal Analyst shall present the report to the Executive Appropriation Committee in September and a summary report for each appropriations subcommittee for the 2002 General Session.

The division will use \$50,000 of appropriated funds for the Utah Summer games.

The division will use \$100,000 of appropriated funds for Morgan Economic Development.

The division will use \$150,000 of appropriated funds for Tourism Marketing Performance.

- The division will use \$100,000 of appropriated funds for the Utah Opera Improvement Fund.
- 88 The division will allocate \$100,000 of appropriated funds to the Utah Association of Counties to assist Utah counties in meeting their legal expenses on lawsuits filed against the federal government regarding the Utah Wilderness Inventory and the designation of the Grand Staircase Escalante National Monument.

The division will use \$100,000 of appropriated funds for the Ogden Dinosaur Museum.

Appropriations to the Olene Walker Housing Trust Fund that exceed appropriations made to the fund during the 2000 General Session are given priority to fund non-profit efforts to help finance the purchase of at-risk HUD-assisted properties.

FY2001, Item

- The division will use \$300,000 of appropriated funds for the Utah Silicon Valley Alliance initiative.
- The division will use \$75,000 of appropriated funds to Memory Grove restoration.

Senate Bill 1

FY2001, Item

50 The division will use \$2,000,000 of appropriated funds for the relocation of the Kuhni Rendering Plant. These funds are to be matched with non-state funds on a two-to-one basis for every dollar of state funds.

- 51 The division will use \$350,000 of appropriated funds for Hill Air Force Base easements.
- Proceeds in excess of \$4,000,000 paid to the state from the liquidation of Utah

Technology Finance Corporation, whether these proceeds come from cash, sale of real property, or collection of accounts receivable, are to be deposited in the Industrial Assistance Fund.

ECONOMIC DEVELOPMENT AND HUMAN RESOURCES - CONTINUED

ELECTED OFFICIALS

Ron Haymond, Analyst

Overview

The total FY 2002 appropriation for Elected Officials is \$65,351,300, a 13.4 percent decrease compared to FY 2001. The General Fund appropriation decreased by 17.8 percent. The large decreases resulted from one-time FY 2001 funding for the 2002 Olympic Winter Games.

Attorney General

The total appropriation of \$32,004,700 for the attorney general is a 3.7 percent increase compared to FY 2001. Included in the appropriation is \$75,000 to fully fund the obscenity and pornography complaints ombudsman.

General Fund of \$205,000 was appropriated to provide for new Children's Justice Centers in Emery and Wasatch counties and \$28,300 to provide for postconviction DNA testing of an incarcerated person.

Included in the appropriation for the State Counsel is \$378,000 in dedicated credits resulting from a change in the matching funds rate under Title IV-E of the Social Security Act. A supplemental appropriation of \$107,400 from tobacco settlement funds is provided to monitor and enforce the provisions of the tobacco settlement agreement and to defend against any suits filed by tobacco growers, tobacco importers, or other special interest groups.

In addition to the base budget funding for the Domestic Violence program, the legislature appro-

priated \$35,000 from criminal fine surcharges to strengthen efforts to educate groups and organizations on methods to reduce and prevent incidences of domestic violence.

State Auditor

The State Auditor's Office received a General Fund appropriation of \$2,822,900, a 3.9 percent increase over FY 2001. The state auditor requested, and the legislature appropriated, a flat budget with no additional programs or expanded activities, except for the compensation package.

Governor

Appropriations for the governor include the Governor's Office, the Election Office, the Commission for Women and Families, the Emergency Fund, the R.S. 2477 Rights of Way program, the Governor's Office of Planning and Budget (GOPB), and the Commission on Criminal and Juvenile Justice (CCJJ).

The FY 2002 General Fund appropriation of \$8,802,300 includes \$100,000 to document and reprogram the Utah Process Economic and Demographic (UPED) Model and \$100,000 in one-time funding to assist counties and other local governments to develop and implement land use plans and to assist Southern Utah University to conduct workshops on land planning. The legislature also appropriated a total of \$2,496,800 for legal research and litigation related to resolving the problems of who owns and is responsible for R.S. 2477 roads. R.S. 2477 roads are the small

back ways and byways throughout rural Utah that cross federal lands.

In FY 2001, the State Olympic Officer was appropriated a total of \$7,500,000 from the General Fund to build tourism and attract business to Utah through the state's Olympic exposure. This appropriation includes \$4,000,000 for DCED to use the Olympics as a catalyst to promote tourism and business development in Utah. Another \$2,000,000 is to be used with a dollar-fordollar match from the Salt Lake Organizing Committee and local governments to assist communities in decorating and promoting the *Utah!* brand leading up to and during the Olympics. The remaining appropriation is to address other issues, including the cost of services provided by state agencies.

CCJJ's appropriation for FY 2002 totaled \$17,272,600. The federal fund portion of this total is \$14,711,900 or 85.2 percent. Included in this amount is \$4,400,000 in pass-through funding to local government agencies for anti-drug abuse, gang and juvenile delinquency prevention, victim assistance and substance abuse, and jail construction programs. Another \$1,902,300 is contracted with non-profit private agencies, and \$8,400,000 is passed through to other state agencies to support programs focused on drug abuse, delinquency prevention, victim assistance and substance abuse, and prison construction programs.

State Treasurer

The FY 2002 General Fund appropriation of \$831,900 is 8.6 percent less than in FY 2001. A supplemental appropriation of \$100,000 was provided for FY 2001 to establish a process for holding and maintaining seized property as required under Initiative B, which was approved by the voters in the 2000 General Election.

Legislative Intent Statements

House Bill 1

FY 2002, Item

- 9 Funds for the Governor's Office are non-lapsing.
- Funds for the Elections Office are non-lapsing.
- Funds for the Governor's Commission for Women and Families are nonlapsing.
- Funds for the Governor's Emergency Fund are nonlapsing.
- Funds for R.S. 2477 Rights of Way are nonlapsing.

Funds expended from the R.S. 2477 fund are to be used for litigation designed to quiet title to existing rights of way established before 1976 under R.S. 2477 guidelines. The governor or his designee shall present a report to the legislature during each general session detailing activities funded within this line item.

- Funds for the Governor's Office of Planning and Budget are nonlapsing.
- Funds for the Commission on Criminal and Juvenile Justice are nonlapsing.
- Funds for the State Auditor are nonlapsing.
- Funds for the State Treasurer are nonlapsing.

- Funds for the Attorney General's Office are nonlapsing.
- 19 Funds for the Child Protection Division are nonlapsing.

The Division of Services for people with Disabilities (DSPD), through the Attorney General's Office, is to continue to seek dismissal of the Lisa P. Settlement Agreement at the earliest possible date. DSPD and the Attorney General's Office are to provide a written report on the status of the Lisa P. Settlement Agreement to the Health and Human Services Interim Committee. This report is to be provided to the interim committee beginning in April and will continue to be reported in each 2001 interim committee meeting until the settlement agreement is dismissed. DSPD and the Attorney General's Office are to also report on the status of the Lisa P. Settlement Agreement to the 2002 Health and Human Services Appropriations Subcommittee and the **Executive Offices and Criminal Justice** Appropriations Subcommittee.

- Funds for the Children's Justice Centers are nonlapsing.
- Funds for Antitrust Prosecution are nonlapsing.
- Funds for the Prosecution Council are nonlapsing.
- Funds for the prevention of domestic violence are nonlapsing.

Senate Bill 3

FY 2002, Item

- 8 The discretionary component of the Fiscal Year 2002 compensation package is to be used by the Governor's Office to fund its most critical salary needs.
- 10 Planning initiatives and planning monies of the Utah Quality Growth Commission and the Governor's Rural Partnership Board will be coordinated with the Local Government Comprehensive Planning Project.
 - 12 The discretionary component of the Fiscal Year 2002 compensation package is to be used by the State Auditor's Office to fund its most critical salary needs.
- The discretionary component of the Fiscal Year 2002 compensation package is to be used by the State Treasurer's Office to fund its most critical salary needs.
- 15 The discretionary component of the Fiscal Year 2002 compensation package is to be used by the Attorney General's Office to fund its most critical salary needs.

Senate Bill 1

FY 2001, Item

4 Funds for the R.S. 2477 Rights of Way are nonlapsing.

ENVIRONMENTAL QUALITY

Joe Brown, Analyst

Overview

The total FY 2002 operations budget for the Department of Environmental Quality (DEQ) is \$38,484,000, a decrease of 1.4 percent from FY 2001 budget levels shown in the operating budget table. Most of this decrease is attributed to reduced federal funding in FY 2002.

Highlights

Executive Director's Office

The Executive Director's Office received an FY 2002 one-time appropriation of \$439,000 from the Environmental Quality Restricted Account for legal and technical expenses the department has or may incur from the investigation, evaluation, and litigation efforts in its fight to keep high-level nuclear waste out of the state.

The Executive Director's Office also received a supplemental \$300,000 General Fund appropriation and an \$800,000 one-time General Fund appropriation to fund a nuclear waste opposition office that will do everything legally and politically possible to keep the storage of high-level nuclear waste out of the state. The legislature also passed Senate Bill 81, *Provisions Relating to High-level Nuclear Waste*, which prohibits the placement of high-level nuclear waste within the state and prohibits governmental entities or businesses from providing services to facilitate the placement of this waste in the state.

Environmental Response/Remediation

The legislature reapproved a one-time appropriation of \$87,200 from the Petroleum Storage Tank Trust Fund. These funds will pay the salary costs of legal counsel retained through the Attorney General's Office. Legal counsel is assisting the department in pursuing recovery of expenditures that have been made to cleanup underground storage tanks not covered under the Petroleum Storage Tank Trust Fund. Any recovered costs will be put into that trust fund.

The Hazardous Substances Mitigation Fund received a \$400,000 one-time appropriation from the Environmental Quality Restricted Account for cleanup of hazardous material releases that pose an immediate threat to the environment or the public.

Radiation

The division received a supplemental appropriation of \$125,000 from the Environmental Quality Restricted Account to develop a generator site access license database and an electronic license system. The division also received an appropriation of \$317,700 from the same account to monitor containerized Class A low level radioactive waste at the Envirocare facility.

Water Quality

Requirements for stormwater discharge permits that previously were only required for new building projects in cities of more than 100,000 population and construction sites larger than five acres now apply to smaller cities and construction sites of just over one acre. This will significantly increase the number of stormwater permits required. The division requested a one-time General Fund appropriation of \$70,000 to fund an employee to assist in the implementation of this program. The legislature approved the hiring of one person but extracted General Fund from other divisions within the department to fund this program. Funding in subsequent years will come from permit fees.

Legislative Intent Statements

House Bill 1

FY 2002, Item

241 The \$125,000 appropriated to DEQ from the Environmental Quality Restricted Account for the development of a generator site access license database and an electronic license system shall be nonlapsing until the design and implementation of the system is completed. At the end of the fiscal year in which the system is completed, any funds remaining from the appropriation will lapse into the Environmental Quality Restricted Account.

Funds appropriated for the purpose of addressing high-level nuclear waste are nonlapsing.

Any unexpended groundwater permit administration fees are nonlapsing and authorized for use in the groundwater permit administration program in the following fiscal year to reduce the fees charged.

The executive director of DEQ may accept and expend funds under the provision of 19-1-202 (2) (c) UCA for review of radioactive waste license

amendments for disposal of containerized Class A low level radioactive waste. Any funding received by the executive director for review of radioactive waste license amendments for disposal of containerized Class A low level radioactive waste shall be nonlapsing.

Any unexpended funds in the air operating permit program are nonlapsing and authorized for use in the air operating permit program in FY 2002 to reduce emission fees.

Funding provided to hire a full-time attorney to recover Petroleum Storage Tank Trust Funds and Petroleum Storage Cleanup Funds are to be used exclusively for that purpose. This funding is to be considered a one-time appropriation.

The department shall implement an internal performance management initiative that assesses efficient use of department personnel and budgets. This plan will continue to be updated and coordinated through a department performance management team, with the approval from and implementation directed by the department's executive director.

The department shall make a report to the Joint Appropriations Subcommittee for Transportation and Environmental Quality prior to the 2002 General Session indicating the efficiencies and cost reductions that have been achieved and those that are anticipated as a result of implementing these improvement actions.

The department, in conjunction with these improvement initiatives, shall be given authorization to adjust the assignment of FTE positions between program items as may be necessary in order to achieve the objectives of this plan. Such reassignments of FTE positions will be included in the report to the Joint Appropriations Subcommittee for Transportation and Environmental Quality, and any transfer of funding will be facilitated through a supplemental appropriations request in the 2002 General Session.

Senate Bill 3

FY 2002, Item

The discretionary component of the FY 2002 compensation package shall be used by the department to fund its most critical salary needs.

Senate Bill 1

FY 2001, Item

In accordance with 63-38-3.2 UCA, the following fees are approved for the services of DEQ for FY 2001. These fees are in addition to those approved in Chapter 344 Section 2, Laws of Utah 2000.

Annual Generator Site Access License 1-100 cubic feet - 500.00 > 100 cubic feet - 1,300.00 Broker/Collector - 5,000.00 The \$125,000 appropriated to DEQ from the Environmental Quality Restricted Account for the development of a generator site access license database and an electronic license system is nonlapsing until the design and implementation of the system is completed. At the end of the fiscal year in which the system is completed, any funds remaining from the appropriation will lapse into the Environmental Quality Restricted Account.

Funds appropriated for high-level nuclear waste are nonlapsing.

The executive director of DEQ may accept and expend funds under the provision of 19-1-202 (2) (c) UCA for review of radioactive waste license amendments for disposal of containerized Class A low level radioactive waste. Any funding received by the executive director for review of radioactive waste license amendments for disposal of containerized Class A low level radioactive waste shall be nonlapsing.

HEALTH

Kimberly Hood, Analyst

The Utah Department of Health (DOH) exists to protect the public's health through preventing illness, injury, and premature death; assuring access to health care; and promoting healthy lifestyles. The divisions and offices are Executive Director Operations, Health Systems Improvement, Epidemiology and Laboratory Services, Community and Family Health Services, Health Care Financing, Medical Assistance, and the Children's Health Insurance Program.

In addition to DOH, other organizations included in this section are the Veterans' Nursing Home and the Medical Education Council.

The Veterans' Nursing Home provides skilled and intermediate levels of care to Utah's veterans and eligible spouses. The Medical Education Council assures that Utah is matching its health care workforce training efforts with the state and regional needs, as well as assuring an adequate supply and type of health professions.

Overview

DOH was appropriated \$1,114,461,500 for FY 2002, a 4.0 percent increase over FY 2001. The General Fund appropriation of \$230,384,800 is an 18.2 percent increase over FY 2001.

Highlights

Executive Director

The Children's Organ Transplant Fund received an additional \$100,000 in Restricted

General Fund. This fund provides families assistance with some ancillary expenses involved in an organ transplant.

The legislature created a new line item for the local health departments and appropriated \$100,000 of General Fund. The additional funding restored program services to FY 2000 levels.

The legislature appropriated one-time General Fund of \$200,000 to the Medical Examiner's Office to continue office hours in the evenings and on weekends. The office was given authority over highway deaths through House Bill 61, *Medical Examiner Authority*, and appropriated \$203,800 ongoing General Fund and \$3,000 one-time General Fund to implement the bill.

Health Systems Improvement

The legislature appropriated \$500,000 ongoing General Fund for the State Primary Care Grant Program. This program provides access to health care for underserved populations such as migrant workers, Native Americans, and working poor adults.

From the General Fund, the legislature appropriated \$435,000 one-time for the telehealth program and \$100,000 one-time to implement House Bill 89, *Rural Pharmacy Changes*. The act creates a rural telepharmacy program.

Epidemiology and Laboratory Services

The legislature appropriated a General Fund supplemental of \$340,000 to replace obsolete labo-

ratory equipment. The equipment will allow the laboratory to continue to provide high quality analysis and improve turn around times.

Community and Family Health

The legislature appropriated \$600,000 in ongoing General Fund for the Baby Watch Early Intervention program. The program helps identify problems early and supports families who choose to care in the home for their children with disabilities

The legislature appropriated one-time General Fund of \$70,000 to implement the provisions of House Bill 69, *Sexual Violence Prevention and Community Awareness*. The funding is for community awareness in schools.

The legislature appropriated \$100,000 supplemental General Fund for FY 2001 to fund a youth suicide prevention pilot project. The pilot project will identify useful interventions for high-risk students.

Health Care Financing/Medical Assistance

Federally mandated inflation and utilization increases, combined with a reduction in the federal funding participation rate, resulted in an increase of \$21,543,700 in the General Fund appropriation for the Medical Assistance program.

The Health Care Financing Administration mandated that states expand Medicaid to 18 year olds whose annual family income is at or below 100 percent of the federal poverty level, or \$17,650 for a family of four. The legislature appropriated \$704,900 ongoing General Fund to meet the federal mandate.

Many Medicaid providers, including physicians, dentists, and ambulance companies, have not had an increase in fees in over ten years. The legislature appropriated \$662,600 of ongoing General Fund to increase fees and maintain access for patients.

The legislature also appropriated \$500,000 in one-time restricted funds for the Medicaid program from the Medicaid Transition Account to implement the Ticket to Work program. The program allows disabled individuals to continue receiving Medicaid benefits after going to work. Recipients can earn up to 250 percent of the federal poverty level and retain Medicaid benefits. The restricted account was established in 1996 to capture savings resulting from the transition to managed care and to use the savings to expand access to health care services.

The Medicaid program was further expanded to include services for eligible women who have been diagnosed with breast and or cervical cancer. The legislature appropriated one-time General Fund of \$117,500 to start the program.

Senate Bill 58, *Repeal of Nursing Facilities Assessment*, repeals the nursing facility assessment tax and provides \$4,400,000 of General Fund to replace the tax as a funding source for Medicaid. The new law also appropriates \$1,300,000 one-time funding for the Area Health Education Centers.

For FY 2001 the Utah Medical Assistance Program was appropriated \$1,400,000 to restore medical services that were eliminated because of budget shortfalls. The program was also appropriated \$190,000 of one-time General Fund, \$110,000 from the Medicaid Restricted Account, and a General Fund supplemental of \$26,200 for inflation and utilization increases.

Children's Health Insurance Program (CHIP)

CHIP provides health insurance for children under the age of 19 whose annual family income is at or below 200 percent of the federal poverty level, or between \$17,650 and \$35,300 for a family of four. This program is enrolling 100 to 200 children per week. Currently, 21,000 children are enrolled, but 32,400 have received coverage.

The legislature appropriated \$24,641,100 in total funds for year four for CHIP to provide health insurance to children in working poor families. State matching funds for CHIP are provided by funds received from the tobacco settlement agreement.

Medical Education Council

The legislature appropriated \$110,000 in onetime funding for administrative costs to show the state's commitment for a Health Care Financing Administration demonstration waiver. The funds draw down \$440,000 federal funds.

Future Budget Considerations

Replacing one-time funding with ongoing funds for Medicaid's Ticket to Work and breast and cervical cancer programs should be considered.

Replacing one-time with ongoing funds for the Office of the Medical Examiner should be considered.

Legislative Intent Statements

House Bill 1

FY 2002, Item

DOH is to present one of its division budgets in extensive detail at the annual budget presentation hearing. The division budget to be presented will be chosen by the co-chairs of the Health and Human Services Appropriations Subcommittee by July of the preceding year.

DOH is to present to the Office of the Legislative Fiscal Analyst its annual budget submission, including detailed outcome measures for each budget area in each division within the department. These outcome measures shall be reported in terms of outcomes achieved with the population served in addition to the report of total numbers served. The report shall include those who are statistically eligible, but did not need or accept state funded services. The legislative fiscal analyst shall include the department's report, including measurements within its budget presentation, on an item by item basis.

The budget analysis for DOH is to be presented with a breakdown between costs of administration and services delivered.

The Office of the Medical Examiner shall charge scheduled fees, except no fees will be charged for state criminal cases.

Fees collected for the purpose of plan reviews by the Bureau of Licensing are nonlapsing.

Funds for the Primary Care Health Grants are nonlapsing.

- 127 The Division of Epidemiology and Laboratory Services may receive donated laboratory equipment and shall use such equipment for the purpose of promoting and protecting the public's health.
- 128 The Division of Community and Family Health Services will suggest a \$10.00 donation for children's services in the Early Intervention program.
- 129 DOH will contract with the Department of Human Services in FY 2002 to fund \$1,600,000 worth of services provided by the Division of Services for People with Disabilities to people with disabilities whose names are on the critical needs waiting list.

130 DOH will review with the Executive Appropriations Committee any Medicaid Program reductions or additions.

Senate Bill 3

FY2001, Item

- The discretionary component of the FY 2001 compensation package is to be used by the department to fund its most critical salary needs.
- Funding for the Primary Care Health
 Grants are not to be expended for interdepartmental projects except for
 Community Partnered Mobile Dental
 Services.

The \$435,000 appropriated to DOH is to be used to support the Utah Telehealth Network's telemedicine and telepharmacy programs.

Senate Bill 1

FY2001, Item

57 Supplemental funds for the Medical Examiner are nonlapsing.

- Supplemental funds for purchasing laboratory equipment are nonlapsing.
- Funds appropriated from the Tobacco Settlement Restricted Account are nonlapsing.

Supplemental funds for Youth Suicide Prevention are nonlapsing.

of Human Services in FY 2002 to fund \$1,600,000 worth of Services provided by the Division of Services for People with Disabilities to people with disabilities whose names are on the critical needs waiting list.

Funds from the Nursing Facility Restricted Account are nonlapsing.

63 Supplemental funds for the Utah Medical Assistance Program are non-lapsing.

Pharmacy rebate monies received by the Medical Assistance Program are to fund the Medical Assistance Program and the Utah Medical Assistance Program, and are nonlapsing.

HIGHER EDUCATION

Mel Parker, Analyst

Overview

Higher Education includes the Utah System of Higher Education (USHE) and the Utah Education Network (UEN). USHE consists of nine state-operated universities and colleges and the State Board of Regents. UEN is a collaboration of Higher and Public Education and includes two public television stations and statewide education technology networks.

The total FY 2002 appropriation for Higher Education is \$838,292,900. Of this amount, \$815,576,400 is ongoing funding and \$22,716,500 is one-time funding. Excluding one-time appropriations and base adjustments, Higher Education received an 8.6 percent base increase of \$64,821,600 in ongoing support. The new ongoing amount includes \$49,659,700 from state funds (General Fund and school funds) and \$15,131,100 from dedicated credits (primarily tuition).

A 1996 constitutional amendment allows income tax revenue (school funds) to finance Higher Education. For FY 2002, school funds comprise 33.1 percent of Higher Education's state funds appropriations. This is 1.7 percent more than the percentage experienced in FY 2001, which was up slightly from 31 percent in FY 2000.

Highlights

Utah System of Higher Education

The governor's engineering initiative was appropriated \$1,000,000 ongoing and \$3,000,000

one-time school funds. Items partially funded include: 1) enrollment growth; 2) operations and maintenance (O and M); and 3) elements of the funding formula, including student support non-compensation, funding equity, and core support. However, the formula as compiled by the Funding Formula Task Force was not adopted.

Noteworthy items receiving ongoing appropriations include: 1) Utah State University (USU) extension, \$200,000; 2) USU Cooperative Extension/Agriculture Experiment Station, \$550,000; and 3) vocational rehabilitation replacement, \$738,000. Noteworthy items receiving one-time appropriations include: 1) technology, \$5,563,100; 2) University of Utah (U of U) School of Medicine, \$1,500,000; 3) U of U technology infrastructure, \$1,000,000; 4) fuel and power rate increase, \$4,386,600; and 5) Salt Lake Community College (SLCC) wireless project, \$500,000.

USHE received enrollment growth funding to reflect a net increase of 3,563 full-time equivalent (FTE) students. The original request for enrollment growth included 4,363 FTE students. Despite only partially funding enrollment growth, the legislature elected to hold some institutions harmless for enrollment decreases and to fund about 79 percent of the growth at other institutions. In addition, funding for enrollment growth included funds to support the remedial instruction at USU branch campuses. The total school funds allocated for this purpose is \$12,438,700.

New O and M funding totaled \$3,415,400 in state funds. The funding for each project was set

at 95 percent of the requested amount. Funded projects include the following: 1) U of U - Price Museum of Fine Arts and the Cowles Building; 2) USU - Science Learning Center, Uintah Basin Education Center, university police department offices, university press offices, Communicative Disorders Building, Family and Human Development classrooms and office annex, and Lyric Theatre; 3) Weber State University (WSU) -Visual Arts Building; 4) Southern Utah University (SUU) - Physical Education Building, Birch Mann Home (American Folk Ballet), and middle school grounds and landscaping; 5) Snow College - Snow South Multi-events Center; 6) Dixie State College of Utah - Math and Adult Education Building, Student Services Center, and Hurricane Center expansion; 7) College of Eastern Utah - Physical Plant Building; 8) Utah Valley State College (UVSC) - Journal Building, Information Sciences Building, and Gunther Trades Classroom addition; 9) SLCC - Jordan Campus, Detroit Diesel Facility, Larry H. Miller Building #3, and Larry H. Miller Building #4. Supplemental state funds in the amount of \$179,000 were also appropriated to USU for Widtsoe Hall O and M.

State funding for USHE capital development, design, and construction of new projects totaled \$156,146,000. The funded projects include the following: 1) USU Central Heating Plant replacement, 2) Dixie State College of Utah Eccles/Graff Fine and Performing Arts Center, 3) College of Eastern Utah Main Complex renovation/replacement, 4) USU Engineering Building renovation and replacement, 5) UVSC Classroom Building, 6) Snow College Performing Arts Building, 7) WSU Davis Campus Building/infrastructure, 8) U of U Engineering Building, and 9) U of U Huntsman Clinical Research Hospital.

The projects were funded with \$155,759,000 in state funds and \$387,000 from other resources.

In addition, USHE received approval to complete the following 11 non-state funded projects:

1) U of U University Hospital expansion, Emma

Eccles Jones Medical Sciences Building addition, Moran Eye Center Phase II, Museum of Natural History, and Huntsman Clinical Research Hospital; 2) USU Engineering Building remodel, and Health, Physical Education, and Recreation Building expansion; 3) SUU Utah Shakespearean Festival Centre for the Performing Arts; 4) Dixie State College of Utah Hurricane Center addition and Student Center addition; and 5) SLCC (Redwood) Cafeteria remodel.

Utah Education Network

UEN received \$1,000,000 in ongoing Uniform School Fund to accommodate the continued growth in network traffic, to support mission critical applications, and to provide an additional Internet access link. Dedicated credits from the federal education rate (e-rate) will approximate \$1,700,000.

One-time allocations included \$2,066,800 as the final installment for the conversion of KUED - 7 and KULC - 9 from an analog to a digital environment as mandated by the Federal Communications Commission. In addition, UEN received \$1,000,000 in one-time funding to add additional equipment to the network infrastructure to reduce 'single-points of failure' and improve network reliability and capacity.

Compensation

Higher Education received a general compensation package equivalent to state employees, with a 4.0 percent increase for salaries and salary-related benefits, a 16.1 percent increase for health insurance premiums, and a 3.0 percent increase for dental insurance premiums. Sources of funding for the compensation package included \$22,160,200 from school funds, \$7,987,400 from dedicated credits, and \$30,800 from other sources.

Because the tuition increase adopted by the Board of Regents prior to the legislative session only generated \$7,143,700 in dedicated credits to

apply to the compensation package, the Regents adopted an additional 1.5 percent tuition increase at their March meeting to fulfill the expected funding of the compensation package at each institution. In addition, USHE received \$4,554,500 in salary equity funding. UEN received \$200,000 for salary equity.

The legislature approved intent language that allows the Board of Regents to add a tuition surcharge of up to 4.0 percent at U of U, USU (Logan campus only), WSU, and SUU; and up to 7.0 percent at UVSC. Any funds generated from a tuition surcharge must remain at each respective institution and be used to fund critical needs.

Future Budget Issues

Less than full funding of enrollment growth means that USHE institutions will have 800 unfunded students on their campuses at the beginning of FY 2002 before any new growth occurs.

Supplemental and one-time funding was provided to USHE institutions to address the dramatic increases in fuel and power rates in FY 2001 and FY 2002. However, because of continuing market fluctuations, conditions and funding levels will need to be reevaluated for both FY 2002 and FY 2003.

Several capital development projects will require O and M funding in FY 2003. The amount is estimated at \$3,000,000. In addition, because O and M projects received less than full funding for FY 2002, deferred maintenance problems on USHE campuses could be exacerbated.

Although initial funding for the engineering initiative was provided, additional funds will be necessary in future years to meet the governor's goal of doubling in five years and tripling in eight years the number of engineering, computer science, and technology-related graduates from the state's colleges and universities.

In FY 2003, UEN is expected to request one-time funding of approximately \$500,000 to upgrade aging microwave components that presently serve many of the more rural sections of the state, and \$400,000 to upgrade the Utah Education Network Satellite Systems (UENSS), which provides instruction across all of the counties in Utah. UEN anticipates requesting an additional \$300,000 in ongoing funds to fund its portion of upgrading the Pioneer Online Library Services that is widely used in public schools, institutions of higher education, and public libraries. Finally, it is projected that a third Internet link will be required at a cost of \$500,000.

Legislative Intent Statements

House Bill 1

FY 2002, Item

143, 154, 156, 157, 168, 170, 173, 175, 177, 180, 183, 184, 186, 189

Tuition generated from tuition rate increases shall remain with the institutions. After compensation, the allocation of tuition revenue for institutional needs shall be determined by the president of each institution in consultation with student body representatives.

143, 145, 146, 148, 149, 152, 153, 154, 156, 157, 160, 161, 162, 163, 164, 165, 166, 168, 170, 173, 175, 177, 180, 182, 183, 184, 186, 188, 189, 194, 196, 200, 202, 203

Salary increases are to be distributed to faculty, professional, and classified employees in an equitable manner.

143, 154, 168, 170, 173, 175, 177, 180, 183, 184, 186, 189

All Utah System of Higher Education institutions are to use facility O and M funding consistent with state agencies only for O and M purposes.

The Council of Presidents and representatives of the Board of Regents, working in conjunction with legislators, the legislative fiscal analyst, and a representative of the governor's office, are to review and refine the funding formula for USHE. This proposed formula is to reduce dependence on growth funding, link to measurable systemwide and institutional specific performance indicators, respond to changes in costs of instruction due to the implementation of technology or the utilization of cost saving measures, and respond to market demand and student performance as well as to recognize differences in institutional roles and missions.

The State Board of Regents is directed to closely supervise the fuel and power budgets with the intent of promoting greater energy efficiency on each campus. The Board of Regents is to report during the interim to the subcommittee on Higher Education on the implementation of long term plans to control and manage energy costs.

Funding is to be designated for distance learning program development by the nine USHE institutions. The Regents are also directed to establish accountability measures and a master plan for the operation of the item in consultation with the nine institutions and the legislative fiscal analyst.

USHE is to complete and submit all financial reports (i.e. A-1's, R-1's, S-10's, and S-12's, etc.) to the Office of the Legislative Fiscal Analyst by October 1 of each fiscal year.

The University Hospital may retain patient fees if it spends the fees in compliance with the hospital's operating budget approved by the State Board of Regents.

154, 186

The continuing education programs at Brigham City and Tooele are to be shown as separate line items. These line items shall include program instructional costs, administrative and student support, building lease payments for FY 2003, and facility operations and maintenance expenses.

The building lease payments and the financing arrangements are to be reviewed to determine whether the students using these facilities are paying a reasonable amount of the cost.

154, 156, 157, 164

Developmental courses at USU Branch Campuses and Extension Centers are to be converted to budget related enrollments.

154, 155, 156, 157, 173, 174, 175, 180, 181, 183, 186, 187, 189

USHE, in submitting its budget for FY 2003 for the educationally disadvantaged, shall separate their requests by the main campus and by any branch campuses.

The Office of the Legislative Fiscal Analyst, in preparing the annual Appropriations Act for FY 2003, shall separate into line items of appropriation those requests approved for the educationally disadvantaged by the main campus and by any branch campuses.

154, 158, 189

The Division of Facilities Construction and Management (DFCM) is to purchase the Brigham City Education Facility together with the adjacent property from Box Elder County and lease it to the Bridgerland Applied Technology Center, USU, and other state entities at a rate sufficient to cover the operations

and maintenance cost of the entire facility including vacant space. DFCM may lease the vacant space to other entities at market rates until such time as it is needed for state purposes.

157, 180, 183

The budgets of USU's Southeastern Utah Continuing Education Center, and the College of Eastern Utah at the Price and San Juan Campuses are to be held harmless this fiscal year because of the temporary nature of the downturn in enrollments. In addition, it is projected that the enrollments will be substantially higher than predicted by the Board of Regents in this academic year and will reach the enrollment target in the next academic year.

159, 186, 189

The state is to provide applied technology educational opportunities for students in Salt Lake and Tooele counties comparable to those found in other areas of the state and encourage the Wasatch Front South Applied Technology Center to develop new regional applied technology education facilities by acquiring and remodeling existing Public and Higher Education facilities that may become available.

The state is to provide operations and maintenance costs consistent with the policies of funding these costs in applied technology education centers throughout the state.

189, 199

The Board of Regents, in consultation with the Utah Academic Library Council, should coordinate library funding for the nine institutions.

The State Board of Regents may add a tuition surcharge not greater than 4.0

percent of the current year tuition at the U of U, USU - Logan campus only, WSU, and SUU for the 2001-02 academic year.

The State Board of Regents may add a tuition surcharge not greater than 7.0 percent of the current year tuition at UVSC for the 2001-02 academic year. These tuition surcharges at each of these institutions must be based on demonstrated critical institutional needs.

Any tuition surcharge increase is not to be across the board but to be based on a differential system reflecting the cost of providing for the type of degree sought by the student. These tuition surcharges shall be ongoing, collected, retained by the institution as dedicated credits, and used to fund critical institutional needs. If a surcharge is imposed, the amount collected and the use of the surcharge shall be reported to the Higher Education Appropriations Subcommittee during the 2001 interim.

As required by 53B-7-101 UCA, the State Board of Regents shall recommend to each session of the legislature the minimum tuitions, resident and nonresident, for each institution that it considers necessary to implement the budget recommendations. Tuition increases beyond those authorized by this intent, are to be brought to the Higher Education Appropriations Subcommittee as part of each annual general session before they are implemented.

198 Programmatic funding for the Utah
Electronic College should be designated
for distance learning program development by USHE institutions. The Board
of Regents should establish accountability measures and a master plan for the
operation of the Electronic College with

input from institutions and the legislative fiscal analyst.

Senate Bill 3

FY 2002, Item

The USU - Cooperative Extension
Division may authorize \$100,000 in
appropriated funds for the Veterinarian
Station in Utah County.

- 104 SUU may authorize \$100,000 in appropriated funds to be used for the SUU Nursing Program.
- This item is entered for the State Board of Regents to eliminate duplicate funding in Item 190, House Bill 1, *Appropriations Act*.

HIGHER EDUCATION - CONTINUED

HUMAN SERVICES

Stephen Jardine, Analyst

Overview

The Department of Human Services was appropriated \$461,911,500, a 3.8 percent increase from FY 2001. The General Fund appropriation increased by 6.7 percent.

Drug Courts/Drug Board

The legislature appropriated an additional \$1,000,000 in General Fund to expand drug courts in the state.

Mental Health

The Division of Mental Health received increased appropriations of the following amounts: 1) \$414,500 in total funds for the State Hospital to comply with new federal regulations regarding seclusion and restraint, 2) \$195,600 in General Fund to replace lost federal funding for state programs and \$580,000 in General Fund to replace lost federal funding for local mental health programs, 3) \$285,000 in total funds for increased medication costs at the State Hospital, and 4) \$505,100 in General Fund for a 3.0 percent cost-of-living increase for county mental health providers. The legislature also appropriated \$300,000 in one-time General Fund for local mental health services.

Substance Abuse

The legislature increased by \$100,000 the authorized amount of spending from the Intoxicated Driver Rehabilitation Restricted

Account. These funds are distributed to local substance abuse authorities for education and intervention services for drivers guilty of driving under the influence. The legislature also approved \$224,800 in General Fund for a 3.0 percent cost-of-living increase for county substance abuse treatment providers.

Senate Bill 68, *Placement of Certain*Residential Facilities for Persons with a Disability, allows county and municipal ordinances, if consistent with federal and state law, to require supervision and security for residential substance abuse facilities located within a certain distance of a school.

Services for People with Disabilities

The Division of Services for People with Disabilities (DSPD) received increased funding to provide a variety of community services for individuals currently on the critical waiting list. The legislature appropriated \$1,600,000 from the Nursing Home Restricted Account for this purpose. Because it is in a restricted account in the Department of Health, the \$1,600,000 does not appear in this section. These funds will be contracted back to DSPD in FY 2002. The legislature also appropriated an additional \$400,000 General Fund to provide services for those currently on the disabilities waiting list. The legislature considers the entire \$2,000,000 to be ongoing base funding. This \$2,000,000, along with additional federal Medicaid matching funds, is estimated to provide services to approximately 372 individuals now on the disabilities waiting list. A 3.0 percent cost-ofliving increase in payment rates, amounting to \$1,804,000 in total funding, was given to community providers. The division also received \$1,326,500 in General Fund to maintain services at current levels to replace a loss of federal matching funds and \$1,050,000 in total funds to provide emergency services and meet multiple crises.

Child and Family Services

The division received increased appropriations of the following amounts: 1) \$3,333,900 total ongoing funds for FY 2002 and \$2,224,400 onetime total funds for FY 2001 to provide support for adoption of children in the state's custody, 2) \$1,848,000 in General Fund to maintain services at current levels due to a loss of federal funding sources, 3) \$426,000 in total funds to provide a rate increase to foster parents, 4) \$655,400 for a 3.0 percent cost-of-living increase in rates paid to community providers, and 5) \$700,000 in one-time federal Temporary Assistance for Needy Families (TANF) block grant funding to implement the court-ordered Milestone Plan. The legislature also increased by \$100,000 the authorized amount of spending from the Domestic Violence Services Restricted Account.

House Bill 64, *Tuition Waivers for Wards of the State*, modifies provisions related to the State System of Higher Education by extending tuition waivers to wards of the state and provides for reimbursement of those waivers by the Division of Child and Family Services (DCFS). The legislature appropriated an additional \$44,100 ongoing General Fund to accomplish the purposes of this bill.

House Bill 83, *Child Welfare Amendments*, requires DCFS to maintain a separate database system for unsubstantiated reports of child abuse and reports of child abuse that are without merit, reduces the period of time unsubstantiated reports of child abuse are maintained on the database system from ten years to five years, and requires the Child Welfare Legislative Oversight

Committee to study immunity of child protection service workers.

House Bill 117, *Amending the Grounds for Taking a Child into Protective Custody*, requires a court-ordered warrant to take a child into protective custody except in limited circumstances.

House Bill 170, *Prescribing Psychiatric Drugs or Medication*, amends the definition of substantiated child abuse to exclude the failure to administer prescribed medication or course of treatment if the parent or legal guardian has not been notified of the opportunity to obtain a physical examination of the minor by a health care professional. The bill also authorizes DCFS to report an individual to the appropriate licensing authority if the division has reason to believe the individual exceeded the individual's scope of practice by recommending medication for a minor.

House Bill 224, *Notice and Reasonable Efforts* for Children in Custody on Grounds Other than Abuse or Neglect, amends provisions related to court orders placing a minor into the custody of DCFS on grounds other than abuse or neglect by requiring the courts to give five days notice of hearing to DCFS and to make certain findings of fact to comply with federal regulations.

House Bill 257, *Mandatory Child Protective Services Requirements*, requires DCFS to follow the same investigative requirements for both preremoval and postremoval investigations of child abuse or neglect.

Senate Bill 97, *Special Needs Adoption Services*, provides a description of the types of special needs adoption services available to adoptive parents and the eligibility for those services and amends the description of duties for DCFS regarding financial support for adoptions of children in the division's custody.

Senate Bill 111, Conflict of Interest Investigations into Allegation of Child Abuse or Neglect, removes the requirement that allegations of abuse and neglect of children in the custody of DCFS be investigated only by law enforcement officers and authorizes DCFS to contract with independent child protective services investigators, who shall have the same rights and duties to investigate as a child protective investigator employed by the division.

Senate Bill 119, *Child Welfare Records Amendments*, consolidates all appeals from informal administrative hearings for substantiation of abuse within the jurisdiction of the juvenile court, clarifies who has access to division records during a proceeding, and gives DCFS access to juvenile court records for investigations and hearings conducted by Child Protective Services.

Senate Bill 153, Kinship Placement for Foster Children, authorizes DCFS to place a child in an emergency kinship placement rather than shelter care prior to a shelter hearing and requires a shelter hearing after an emergency kinship placement or after a parent has entered a domestic violence shelter at the request of the division. The act also expands the circumstances in which the division must conduct a postremoval investigation.

Aging and Adult Services

The legislature appropriated \$250,000 in ongoing General Fund and \$250,000 in one-time General Fund to provide services for individuals waiting for in-home services. The legislature also approved the following allocations: 1) \$132,900 to maintain services at current levels due to a loss of federal funds, 2) \$250,000 ongoing General Fund for the Meals on Wheels program, 3) \$52,000 General Fund for an additional adult protective services investigator, 4) \$165,000 in General Fund for a 3.0 percent cost-of-living increase for county aging services providers, 5) \$300,000 in one-time General Fund for meals for the aging, and 6) \$250,000 one-time General Fund for transportation equipment.

Future Budget Issues

The legislature approved funding \$1,500,000 for services for those on the disabilities waiting list with federal TANF block grant. This is a one-time source of revenue and will need to be replaced with ongoing General Fund next year in order to maintain these services. The legislature also funded \$300,000 for local mental health center services, \$300,000 for meals for the elderly, and \$250,000 for aging in-home services with one-time funds. These will also need to be replaced with ongoing state funding next year in order to continue the services implemented with these one-time appropriations.

Legislative Intent Statements

House Bill 1

FY 2002, Item

134 Federal Medicaid match rate changes for local mental health and substance abuse programs are to be considered by the Department of Human Services in its annual budget preparation.

The department will present to the Office of the Legislative Fiscal Analyst detailed outcome measures in terms, wherever possible, of outcomes achieved with the population served. The report shall also include those who are statistically eligible but did not need or accept state funded services. Such information shall be included in the budget presentation made by the legislative fiscal analyst.

Budget analysis for the department is to be presented with a breakdown between cost of administration and services delivered and the number of citizens served and categorized by cost and type of service. At least one of the division budgets of the departments of Health and Human Services is to be presented in extensive detail at the annual budget hearing, and that division will be selected by the cochairs of the Health and Human Services Appropriations Subcommittee by July of this year.

138 DSPD should place limitations on the use of one-time mini-grants to individuals and families on the waiting list. Such limitations should restrict the use of funds to meet the most critical, immediate, one-time needs of those on the waiting list. The final approval of each request shall be done exclusively by the division after a review to assure that each request meets the requirements of legislative intent. The division should provide a detailed report to the Health and Human Services Appropriations Subcommittee regarding all grants awarded.

In renewing contracts with private providers, DSPD shall consider prevailing labor market conditions.

Rent collected from individuals who occupy state-owned group homes is to be applied to the cost of maintaining these group homes and DSPD will provide an accounting of these rents upon request from the legislature or their staff.

DSPD, through the Attorney General's Office, is to continue to seek dismissal of the Lisa P. Settlement Agreement at the earliest possible date. DSPD and the Attorney General's Office are to provide a written report on the status of the Lisa P. Settlement Agreement to the Health and Human Services Interim Committee, beginning in April, until the settlement

agreement is dismissed. DSPD and the Attorney General's Office are to also report on the status of the Lisa P. Settlement Agreement to the 2002 Health and Human Services Appropriations Subcommittee.

DSPD is to seek to maximize its ability to serve individuals on the waiting list through reviewing existing policies, budgets, and service allocations and pursuing any appropriate additional federal waivers, funding, or other creative mechanisms. DSPD is to report its progress to the 2002 Health and Human Services Appropriations Subcommittee, and the subcommittee is to consider options to reward division employees based on the progress made and in accordance with DHRM rules.

Funds appropriated for the home and community based services waiting list for people with disabilities are to be used exclusively for direct services and related support. DSPD is to report to the Office of the Legislative Fiscal Analyst by December 2001 on the number of individuals served and the services provided.

Any TANF funds transferred to DSPD in excess of the amount transferred in the FY 2000 base budget are to be considered one-time, and the Office of the Legislative Fiscal Analyst, in preparing the recommendations for the FY 2003 budget, should consider replacing the excess TANF transfer with sufficient General Fund to provide the equivalent amount of service.

The Department of Health should contract with the Department of Human Services to fund \$1,600,000 worth of services provided by DSPD to people

with disabilities whose names are on the critical needs waiting list.

Senate Bill 3

FY 2002, Item

- 97 The discretionary component of the Fiscal Year 2002 compensation package is to be used by the department to fund its most critical salary needs.
- 100 Of the funding in this line item, \$250,000 is to be spent for the Meals on Wheels program.

Of the funding in this line item, \$250,000 is to be spent on transportation equipment for services for the aging.

Senate Bill 1

FY 2001, Item

Funds appropriated for DSPD for FY 2001 are nonlapsing.

DSPD, through the Attorney General's Office, is to continue to seek dismissal of the Lisa P. Settlement Agreement at the earliest possible date. DSPD and the Attorney General's Office are to provide a written report on the status of the Lisa P. Settlement Agreement to the Health and Human Services Interim Committee, beginning in April, until the settlement agreement is dismissed. DSPD and the Attorney General's Office are to also report on the status of the Lisa P. Settlement Agreement to the 2002 Health and Human Services Appropriations Subcommittee.

LEGISLATURE

Ron Haymond, Analyst

Overview

The legislature was appropriated \$14,542,550 from the General Fund to support its various offices and activities. The appropriation provides funding for the increased administrative costs of the legislature and its staff offices and a two-year task force study of ways to enhance Public Education. Included is \$167,100 for membership dues to the National Conference of State Legislatures and the Council of State Governments.

The legislature received an additional \$1,406,500 ongoing General Fund for FY 2002 to fund compensation and other administrative expenses. This represents an increase of 10.9 percent over the base budget.

Supplemental General Fund appropriations for FY 2001 totaling \$214,750 were provided to fund the Government Revenue and Tax System Task Force, the Enhancement of Public Education Task Force, the Access to Health Care and Coverage Task Force, and the Task Force on Implementation of Water Fluoridation.

A supplemental and an ongoing General Fund appropriation of \$17,500 were approved to increase the salaries of in-session temporary employees.

Compensation for legislators was increased during the 1999 General Session. House Bill 113, *Legislative Compensation Commission Amendments*, passed in the 1999 General Session,

automatically implemented the salary increase for legislators.

The FY 2002 legislative compensation will remain at FY 2001 levels until the Legislative Compensation Commission recommendations, submitted in November of this year, are considered. The new recommendations will be automatically implemented unless legislators vote against the increase.

Legislators will receive \$120 per day for each calendar day of the annual general session. In addition, legislators will receive \$120 for each day they attend a veto override session, special session, or other authorized legislative meeting. The president of the Senate and the speaker of the House each receive \$3,500 per year. The majority and minority leaders of each house receive \$2,000 per year.

Legislators receive benefits similar to state employees. The state pays 90 percent of the highest premium for health insurance, 80 percent of the highest premium for dental insurance, and offers optical insurance at the legislator's expense. In addition, the state pays the premium for the basic life insurance coverage of \$25,000. Legislators are also eligible for retirement benefits under the Governor's and Legislative Service Pension Act. Upon reaching age 65, and upon application, a legislator with four or more years of service will receive a pension equal to \$10 per month for each year of service as a member of the legislature.

LEGISLATURE

LEGISLATURE - CONTINUED

NATIONAL GUARD

Joe Brown, Analyst

Overview

The National Guard budget for FY 2002 of \$16,167,400 is a 3.3 percent increase over the FY 2001 amount. The major reason for this increase is the transfer of administrative responsibility and associated funding to the National Guard of veteran programs.

National Guard Administration

The legislature reapproved an appropriation of \$100,000 from the General Fund and approved an additional \$100,000 in one-time General Fund for tuition assistance to active National Guard members attending postsecondary institutions. The National Guard uses tuition assistance as an incentive for recruitment of new members and for retention of current members.

Veterans' Affairs

The administration of the Office of Veterans' Affairs was transferred from the Department of Community and Economic Development to the National Guard in accordance with House Bill 140, *Reorganization of Veteran - Related Programs*, passed in the 2000 General Session.

Veterans' Cemetery

The administration of the Veterans' Cemetery and Memorial Park was transferred from the

Division of Parks and Recreation to the National Guard in accordance with House Bill 140, *Reorganization of Veteran - Related Programs*, passed in the 2000 General Session.

The legislature approved additional funding for the cemetery of \$182,000 in one-time General Fund for replacement equipment for the cemetery. The equipment currently at the cemetery is owned by the Division of Parks and Recreation and was not transferred to the National Guard. The legislature also approved a \$62,900 ongoing General Fund appropriation to fund additional personnel to help with maintenance at the cemetery.

Legislative Intent Statements

Senate Bill 3

FY 2002, Item

The discretionary component of the FY 2002 compensation package is to be used by the Utah National Guard to fund its most critical salary needs.

FY 2001, Item

141 The \$90,600 for fuel and power is non-lapsing.

NATURAL RESOURCES

Nicole Diamantes, Analyst

Overview

Natural Resources encompasses the departments of Natural Resources (DNR), Agriculture and Food (UDAF), and Trust Lands Administration (SITLA). The total Natural Resources operations budget for FY 2002 is \$126,128,200, a 5.6 percent decrease from the FY 2001 budget. The budget includes a decrease in General Fund of 7.0 percent from the FY 2001 budget.

Highlights

DNR - Forestry, Fire, and State Lands

The legislature appropriated \$5,500,000 in supplemental General Fund to cover FY 2001 fire costs that exceeded the fire suppression budget. Any unexpended balances from this appropriation will be transferred to the Wildland Fire Suppression Fund created in 65A-8-6.1 UCA.

In addition, the legislature appropriated \$20,000 in ongoing General Fund Restricted - Sovereign Land Management account to resolve the dispute over ownership of sovereign lands in the Bear River Migratory Bird Refuge.

DNR - Parks and Recreation

The legislature appropriated \$10,000 in ongoing General Fund to operate Old Iron Town Park following its incorporation into the state park system.

DNR - Water Rights

The Division of Water Rights is required by statute to advertise all water rights in the state. To continue this advertising, the division was appropriated \$40,000 in ongoing General Fund.

UDAF - Agriculture and Food

The FY 2002 appropriation is \$15,978,600, a 4.4 percent decrease from the FY 2001 budget. The General Fund appropriation is \$10,580,300, a 7.0 percent increase from the FY 2001 budget.

In March 1999, the U.S. Environmental Protection Agency created guidelines for managing animal waste to prevent contamination of waterways. These guidelines place significant financial burden on Utah's animal feeding operations (AFOs) by requiring such feeding operations be moved a specific distance from waterways. Senate Bill 66, *Animal Feeding Operation Grants*, appropriated \$400,000 one-time General Fund for grants to assist operators of AFOs to reach compliance with the EPA requirements.

House Bill 172, *Appropriation for Herd Testing for Johne's Disease*, appropriated \$40,000 one-time General Fund for the initial herd testing to prevent and control the spread of Johne's disease in domestic livestock.

Additional funds appropriated include the following: 1) \$50,000 in ongoing General Fund for a new information technician, 2) \$18,600 ongoing

General Fund for Field Automation and Information Management costs, 3) \$68,000 ongoing General Fund for increased maintenance and operation costs at the Veterinary Lab in Logan, 4) \$19,100 in ongoing General Fund for an additional meat inspector, 5) \$55,000 in ongoing General Fund for an engineer upgrade, 6) \$69,700 in one-time General Fund for the Ag in the Classroom program, and 7) \$50,000 in one-time General Fund for the Cedar Mountain Science initiative.

SITLA - School and Institutional Trust Lands Administration

The FY 2002 appropriation is \$6,949,500, an 8.0 percent increase from the FY 2001 budget. The legislature approved the following increases from the Land Grant Management Fund:

1) \$54,400 ongoing funding for rental cost increases, 2) \$57,900 one-time funding for increased costs in the West Desert Land exchange, 3) \$30,000 ongoing funding for management incentives, and 4) \$250,000 ongoing funding for the block management program.

Capital Budget

The FY 2002 Natural Resources capital budget is \$9,629,800, a 67 percent decrease from the FY 2001 budget.

The legislature appropriated \$300,000 in one-time General Fund to the Division of Wildlife Resources to launch the Blue Ribbon Fisheries initiative. This funding will be used to develop and enhance high quality aquatic systems for angling and aesthetic experiences. By developing these premier fishing areas, additional visitors will be attracted to the area, thus enhancing the economy of the surrounding community. In addition, the legislature appropriated \$1,000,000 in one-time General Fund to the division for conservation easements on SITLA land.

There is currently \$100,000,000 of deferred maintenance costs associated with Utah state

parks. Of this, the Division of Parks and Recreation has identified \$10,000,000 of repairs that require immediate attention. The legislature appropriated \$10,000,000 supplemental General Fund for these projects. According to intent language, \$2,000,000 of this funding must be expended at Green River State Park.

Additional capital appropriations to the Division of Parks and Recreation include the following: 1) \$90,000 one-time General Fund for Old Iron Town Park capital improvements, 2) \$50,000 one-time General Fund for the development of a statewide trail system, 3) \$60,000 in one-time General Fund for operational startup of Sand Hollow Reservoir recreational area, and 4) \$9,000 in one-time General Fund to Stagecoach Inn State Park for the construction of restrooms at the old schoolhouse.

Legislative Intent Statements

House Bill 1

FY 2002, Item

204 The Department of Natural Resources and the School and Institutional Trust Lands Administration will join together in reaching a memorandum of understanding. The memorandum should detail areas of mutual benefit arising from resolution of conflicts in respective mission statements and statutory requirements and shall be jointly presented to the Natural Resources, Agriculture, and Environment Interim Committee on or before October 2001.

The School and Institutional Trust Lands Administration shall report on the development of management strategies and on the use of the \$250,000 appropriation for the management of blocks of trust lands during fall 2001.

205 The FY 2002 one-time General Fund appropriation of \$50,000 for Wide Hollow Water Conservancy District is nonlapsing.

The FY 2000 supplemental appropriation of \$120,000 for Thistle water tunnel improvements is nonlapsing.

Funding for the Bear Lake Regional Commission shall be expended only as a one-to-one match with funds from the State of Idaho.

The Department of Natural Resources shall organize, staff, and conduct a task force to study water rights and issues and report back to the Natural Resources, Agriculture, and Environment Interim Committee on or before their October 2001 meeting. The Water Development Commission shall be kept appraised of progress by the task force.

The appropriation for R.S. 2477 roads defense is nonlapsing.

- 206 The Species Protection program General Fund appropriation is nonlapsing.
- The FY 2000 supplemental appropriation of \$30,000 for Thistle water tunnel improvements is nonlapsing.
- 209 The appropriation to the Minerals Reclamation Program is nonlapsing.
- 210 Up to \$500,000 of the Wildlife
 Resources budget may be used for big
 game depredation expense. Half of these
 funds shall be from the General Fund
 Restricted Wildlife Resources Account
 and half from General Fund. This
 funding is nonlapsing.

The General Fund Restricted - Wildlife Habitat Account appropriation is non-lapsing.

The Division of Wildlife Resources will transfer \$200,000 General Fund to the Department of Agriculture and Food. Of this transfer, \$100,000 will be used to match funds from local governments in the Predatory Animal Control program, and \$100,000 will be used to supplement the amount required by 4-23-9(2)(a) UCA. The division will spend a minimum of \$265,000 to improve deer herds according to management objective plans.

The Division of Wildlife Resources will spend a minimum of \$70,000 from the Wildlife Habitat Account as stated in 23-19-43(5)(a) UCA, on control of predators.

The Division of Wildlife Resources will emphasize as much as possible the revenue-generating activities within its mission.

- 213 Contributed Research funds are nonlapsing.
- 214 Cooperative Environmental Studies funds are nonlapsing.
- 215 The Division of Wildlife Resources capital appropriation is nonlapsing.

The Wildlife Board will use the \$1,000,000 appropriation for the acquisition of conservation easements for big game habitat on land disposed of after July 1, 2001 by the School and Institutional Trust Lands Administration. The ownership of real property shall be in a property tax paying private party or

parties, with the Division of Wildlife Resources owning the conservation easements for big game habitat in that real property as provided in 57-18-4 UCA. This appropriation is nonlapsing.

- 216 The director of the Division of Parks and Recreation will report during the 2001 interim to the Natural Resources,
 Agriculture, and Environment Interim Committee and the Natural Resources
 Appropriations Subcommittee on the planning process for closure of existing parks or incorporation of new parks, including Sand Hollow, into the state park system.
- 217 The Division of Parks and Recreation capital budget is nonlapsing.

No portion of a golf course constructed at Soldier Hollow shall infringe upon space designated for biathlon or other Olympic winter events.

Of the Trails Grants budget, \$100,000 will be dedicated to the Bonneville Shoreline Trail pursuant to 63-11A-504 UCA, if applications and matching funds are available from local governments.

218 Mineral Lease funds are nonlapsing.

The Utah Geological Survey will request reimbursement from the State Office of Education for inspections of proposed school sites required by the State Office of Education under rule RS77-455-4.

- Funds for the Bear River/Wasatch Front program are nonlapsing.
- Water Education funds are nonlapsing.
- The FY 2000 federal funds appropriation to the Division of Water Rights is non-lapsing.

The \$120,000 General Fund appropriation increase for the State Engineer's Office will be used for salaries, benefits, and expenses of personnel who will provide advice and technical assistance to water corporations and their shareholders on proposed changes to the point of diversion, place of use, or purpose of use of the water corporation's water.

Appropriation line items for the Department of Agriculture and Food will be consolidated into a smaller number, and follow the organizational structure of the department.

The appropriation for grants to charitable organizations specified under 57-18-3 UCA, or held by the Department of Agriculture and Food, will be used for purchase of conservation easements for agricultural protection. This appropriation is nonlapsing.

The FY 2001 General Fund appropriation of \$100,000 for Ag In The Classroom is nonlapsing.

The FY 2001 one-time General Fund appropriation of \$50,000 for Trichomoniasis control is nonlapsing.

Any unexpended funds from the appropriation for pesticide disposal amnesty is nonlapsing.

The proceeds from fertilizer assessments authorized in 4-13-3 UCA will be held as nonlapsing dedicated credits.

License fees collected from the pesticide applicators for educational and testing materials are nonlapsing.

Funds for the Pesticide Control program are nonlapsing.

The Department of Agriculture and Food will use its rulemaking authority granted in 4-16-3 UCA to make rules concerning seed container labeling requirements after consultation with the seed industry, the Utah Seed Council, and the Utah Crop Improvement Association.

Funds collected in the Organic Certification program are nonlapsing.

The FY 2001 one-time General Fund appropriation of \$90,000 for private grazing land improvements is nonlapsing.

The FY 2001 one-time General Fund appropriation of \$75,000 for biological control of noxious weeds is nonlapsing.

The appropriation of \$100,000 for agribusiness development is nonlapsing.

The Research Program appropriation is nonlapsing.

The Auction Market Veterinarian collection is nonlapsing.

Dedicated credits received by the Grain Inspection program are nonlapsing.

Funds appropriated to Predatory Animal Control are nonlapsing.

The Division of Wildlife Resources will transfer \$200,000 General Fund to the Department of Agriculture and Food. Of this transfer, \$100,000 will be used to match funds from local governments in the Predatory Animal Control program, and \$100,000 will be used to supplement the amount required by 4-23-9(2)(a) UCA. These funds are nonlapsing.

228 The Soil Conservation Districts will submit annual reports documenting supervisory expenses to the Office of the Legislative Fiscal Analyst, the Governor's Office of Planning and Budget, and the Soil Conservation Commission. These documents will be reviewed and reported to the governor and the 2002 legislature.

Collections for the Ag Tag license plate are nonlapsing.

Funding approved for Soil Conservation District elections are nonlapsing and will be spent only during even-numbered years when elections take place.

Senate Bill 3

FY 2001, Item

- 107 The discretionary component of the Fiscal Year 2002 compensation package will be used by the department to fund its most critical salary needs.
- 108 The discretionary component of the Fiscal Year 2002 compensation package will be used by the department to fund its most critical salary needs.
- 115 The discretionary component of the Fiscal Year 2002 compensation package will be used by the department to fund its most critical salary needs.

Senate Bill 1

FY 2001, Item

Any unexpended balances from the \$5,500,000 FY 2001 supplemental General Fund appropriation for wildland

- fire suppression will be transferred to the Wildland Fire Suppression Fund created in 65A-8-6.1 UCA.
- 93 Of the \$10,000,000 appropriation for parks improvements, \$2,000,000 will be expended at Green River State Park.
- 97 The Department of Agriculture and Food will transfer any lapsing unrestricted balances from FY 2001 appropriations to the FY 2001 Grain Inspection Program.

PUBLIC EDUCATION

Race Davies, Analyst

Overview

The legislature increased funding for Public Education by \$160,763,964 over the FY 2001 appropriation. This is an increase of 7.2 percent. State funds, mostly from the Uniform School Fund (USF), increased by \$141,871,970, or 8.7 percent. State fund increases included \$32,035,000 in one-time appropriations for FY 2002 and \$24,628,100 in supplemental appropriations for FY 2001.

The state Minimum School Program (MSP) mandates a basic levy for local property taxes, and for FY 2002 that levy is estimated at 0.001768. The actual levy for FY 2002 will be finalized by the State Tax Commission on or before June 22, 2002 at a rate that will limit local revenues from the basic levy to a statewide amount of \$196,908,771. Although the rate of the tax will decline, it will generate a revenue increase of \$7,578,900, or 4.0 percent.

The state also guarantees that school districts will receive a minimum level of revenue from board-levied and voter-approved property taxes (board and voted leeways). House Bill 38, *School District Voted Leeway Amendments*, provides an annual increase in the value of the guarantee until it reaches 0.008544 times a district's number of weighted pupil units. For FY 2002, the appropriation for the state guarantee has been increased by \$7,990,632, or 5.1 percent.

Highlights

Teacher Pay and School Operations

The Weighted Pupil Unit (WPU) is the basis for general state support for Public Education. For FY 2001 the legislature increased the WPU from \$2,006 to \$2,116, or 5.5 percent. This matches the percentage increase for FY 2001, which was the largest increase since the hyper-inflation years of the early 1980s.

The increase in the WPU will add \$89,595,303 in appropriations from USF. The funds will be allocated to school districts for textbooks, instructional supplies, and school operations, including pay for teachers and other personnel. Actual compensation packages for teachers will be determined in negotiations between local school districts and teacher organizations.

The Minimum School Program

House Bill 3, *Minimum School Program Act Amendments*, promotes equity in funding for the state's 40 school districts. The legislature amends the act annually to set the value of the WPU, make changes in programs and funding formulas, establish a tax rate for the basic levy that will be applied to assessed property valuation in each school district, and make adjustments for anticipated student enrollment.

The FY 2002 amendments to the MSP appropriate \$1,670,204,760 USF, including \$38,358,000 in capital spending and \$24,785,000 in one-time appropriations. With \$356,458,360 from local property taxes, the total MSP appropriation is \$2,026,663,120. This is an increase of \$121,073,208, or 6.4 percent, over FY 2001 MSP appropriations without the supplementals appropriated this year. Some programmatic changes and additions included in the MSP are discussed below.

Block Grants. The legislature consolidated over 20 categorical aid programs into a few block grants within the MSP. Local school boards will have more ability to direct state funds to meet particular local needs. With greater local control will come increased local responsibility for the results. An appropriation of \$3,897,110 USF was allocated among specific school districts to hold them harmless from the effects of the new formula for distributing block grant funds.

The new block grants are in the areas of applied technology, professional development, atrisk students, accelerated learning, and local discretion. Except for the area of technology education, the programs subsumed in the block grants were either already funded separately from the WPU formula or removed from that portion of the MSP. This contributes to a reduction in the number of WPUs. Despite student growth and new formula-driven WPU increases for necessarily small schools and pre-school special education, there was a decrease of 45,964 WPUs, from 671,513 to 625,549.

Reading and Literacy. The Local Discretionary Block Grant subsumes funding for the state's reading initiative. The legislature continued to recognize, however, the need to specifically address reading and other learning needs of particular groups of students. To further assist the increased number of students for whom English is a second language, the legislature increased funding for alternative language services by \$200,000 USF, or 6.0 percent. Funding for schools that are highly impacted schools with economically disadvantaged students and students from homes

where English is not the principal language was set at \$5,123,207 USF, an increase of \$250,000, or 5.1 percent.

Further support for reading was provided by one-time appropriations to the State Office of Education. One-time USF appropriations were made for the Mrs. Leavitt's Read-to-Me Program, \$300,000; the University of Utah's Reading Skills Clinic, \$450,000; and a new Advanced Readers at Risk Program to encourage reading by students whose interest may decline because their reading skills exceed those required for their grade level, \$500,000.

Meeting the High Tech Challenge. As part of his efforts to increase dramatically the number of college graduates in engineering and computer science, the governor proposed a program to prepare, attract, and retain highly qualified secondary teachers in the areas of mathematics, physical science, and computer science. The Public Education Job Enhancement Program was enacted as part of Senate Bill 61, Enhancements to the State Systems of Public and Higher Education, and the legislature appropriated \$9,900,000 USF, including \$7,500,000 one-time, to initiate the program. Recipients of scholarships and grants will be required to repay funds if they do not teach relevant subject matter in Utah public schools for four years.

Professional Development. The MSP was amended to require each school and school district to develop and implement a long-term plan for staff professional development, and funding for these efforts increased. The new professional development block grant, which includes the existing career ladder program, was increased by \$10,000,000 to provide two additional days of teacher professional training in the emerging Utah Performance Assessment System for Students (UPASS). In addition, \$2,800,000 in one-time USF was added to support professional development efforts.

School Textbooks, Supplies, and Equipment.
The MSP amendments provided additional one-

time USF for school materials, supplies, and equipment. Included is \$8,250,000 for equipment and facilities for the Educational Technology Initiative, \$3,800,000 for additional library materials and supplies, and \$1,375,000 for applied technology equipment in public schools. Outside the MSP, the legislature appropriated \$23,790,000 USF as an FY 2001 supplemental to replace outdated and badly worn textbooks in the public schools.

Class Size Reduction. With the FY 2002 increase in the value of the WPU, funding for class size reduction in grades K through eight will increase by \$3,253,470. Since Governor Leavitt took office, the appropriation has grown from \$4,389,540 for FY 1993 to \$62,584,932 for FY 2002, an increase of 1,326 percent. Unless districts have average class sizes of less than 18 in grades K through two, 50 percent of the appropriation must be spent for class size reduction in those grades.

Student Transportation. The legislature funded student transportation on an ongoing basis in the amount of \$55,745,940 USF. The Board of Education is required to allocate not less than \$1,923,148 of these funds to pay student transportation costs for the Utah Schools for the Deaf and the Blind.

Capital Support. An emergency program to assist several rapidly growing districts to provide new schools and other capital facilities will sunset after the present fiscal year. The emergency funds will become part of the basic capital outlay foundation program that supplements local school district funding for school building construction and renovation. To hold harmless districts that had been receiving the emergency funds, the legislature increased the capital outlay foundation program by \$10,000,000 USF, which will provide additional capital funding for most of the state's school districts.

Other Program Changes. The block grant for accelerated programs subsumes funding for concurrent enrollment, which is a program that enables high school students to take classes for college credit. The legislature also provided \$650,000 for concurrent enrollment as an FY 2001 supplemental appropriation. To help students take high school classes not available in their own school, the legislature increased the appropriation for electronic high school courses by \$200,000 in the MSP and an additional \$200,000 USF as an FY 2001 supplemental appropriation.

Utah State Office of Education (USOE)

Appropriations for school operations, textbooks, and supplies will be distributed by USOE. This agency is responsible for general oversight of public education, including the State Board of Education, Instructional Services, Applied Technology Education, Agency Support, and Strategic Planning.

For FY 2002 the legislature appropriated \$34,575,256 USF to USOE. This includes one-time USF appropriations of \$6,750,000 and represents a total increase of \$18,771,956, or 118.8 percent, over FY 2001 before supplemental appropriations. When supplemental appropriations are added to FY 2001, the total USF for FY 2002 is \$429,944 less than for FY 2001.

Principal FY 2002 increases include increased pay for state employees and the transfer of funding for the Utah Performance Assessment System for Students to USOE from the Minimum School Program. The state's total funding for USOE is \$167,721,656, including an estimated \$126,484,300 in federal funds. The amount of federal aid will be adjusted later to reflect actual federal appropriations. Most federal funding is passed through to local school districts for applied technology education and education of low-income children and persons with disabilities.

Assessment and Accountability. Fiscal year 2002 appropriations include \$3,970,000 in new USF to support implementation of UPASS, the emerging state system for regular assessment and reporting of educational progress in the state's public schools. Included is \$1,000,000 to help parents and teachers make the best use of the

system. In addition to these funds, ongoing support of \$3,500,000, which has been part of the Minimum School Program, has been transferred to USOE.

These appropriations are part of a multi-year effort to build a system that will give parents, teachers, principals, elected officials, and the general public appropriate information on the progress of their children and schools. The system will make it possible for each of us to determine where improvements are needed and when success is achieved.

Teacher-purchased Supplies. For FY 2002 only, House Bill 42, *Funding for Classroom Supplies*, appropriates \$5,000,000 USF to help reimburse teachers for classroom materials and supplies that they purchase themselves.

State Office of Rehabilitation

The State Office of Rehabilitation received \$49,083,500 for FY 2002. Of this, \$17,914,800 is USF and General Fund, which is an increase of \$2,238,000, or 14.3 percent, over FY 2001.

Enhancements include \$650,000 in new USF to expand educational services to persons who have visual, hearing, and other disabilities. Appropriations also added \$328,600 more USF to fully fund three new independent living centers created in FY 2001, \$75,000 USF for assistive technology, \$47,100 USF to hire a program coordinator for persons with hearing impairments, and \$54,000 USF to provide more equitable pay scales for teachers of persons with visual impairments.

Utah Schools for the Deaf and the Blind

The Utah Schools for the Deaf and the Blind (USDB) received a total appropriation of \$21,647,800. It includes \$17,450,000 USF, which is an increase of \$677,100, or 4.0 percent, over FY 2001. The budget includes \$400,000 USF in new, ongoing funds to improve rural outreach programs to children with visual and hearing impair-

ments, and \$63,200 USF for a new orientation and mobility specialist for children who are blind.

Additional appropriations were provided by the legislature through language that allocates USDB \$72,000 one-time USF from the \$8,250,000 appropriation for the Educational Technology Initiative, \$1,923,148 from the \$55,745,940 USF appropriated for pupil transportation in the Minimum School Program, and \$42,305 USF per day of each additional day funded by the legislature to school districts for extra school days.

Nutrition Programs

Nutrition Programs received appropriations of \$95,004,200. The total includes \$80,327,200 from federal funds, \$14,506,500 from the State Liquor Control Tax, and only \$170,500 from USF. Most of these funds are passed through to local school districts to support the school lunch and school breakfast programs.

Educational Contracts

The appropriation of \$3,928,300 USF is a decrease of \$405,500, or 9.4 percent, which is due to declining numbers of children in education programs at the Utah State Development Center in American Fork. An FY 2001 supplemental appropriation of \$55,100 represents the final payment to Alpine School District for services provided to children who were transferred from the developmental center to the public schools.

Fine Arts and Hansen Planetarium

The legislature appropriated \$3,544,500 USF for fine arts and science. This is an increase of \$857,400, or 31.9 percent, over the FY 2001 appropriation. It includes \$250,000 ongoing funding and \$500,000 one-time funding to include the Utah Shakespearean Festival, Utah Museum of Natural History, Utah Festival Opera, and Children's Museum of Utah as line-item recipients of funding to provide arts and sciences programs to Utah school children.

Future Budget Issues

Applied Technology. During the 2000 interim, a legislative task force considered changes in how the state's system of Applied Technology Centers (ATCs) and Applied Technology Service Regions (ATCSRs) would be governed. Task force recommendations were incorporated in House Bill 34, Applied Technology Education Governance, which would have separated the ATC/ATCSR system from Public Education and put it under a new, separate state board. A fifth substitute to House Bill 34 was drafted. It would have placed the system as a college within Higher Education. The substitute bill passed the Senate but failed in the House. It is likely that the issue and its associated funding will be considered in a special session.

Legislative Intent Statements

House Bill 1

FY 2002, Item

231 Sexual education courses taught in public schools must stress the importance of abstinence from all sexual activity before marriage and fidelity after marriage as methods for preventing certain communicable diseases.

USOE shall charge out-of-state students tuition for access to Utah's electronic high school curricula.

District Computer Services at USOE may charge local school districts a fee for the use of state student and fiscal information systems. The fee shall be set by the Utah State Board of Education and shall be based upon student enrollment. Revenue from the fee may be used to either contract or hire support staff.

The Utah State Board of Education may transfer up to \$500,000 annually (subject

to availability) of MSP carryforward to determine district compliance with state law and board rules and to evaluate program effectiveness and efficiency. The board shall determine the programs to be studied and shall contract with organizations and individuals not directly associated with or employed by USOE. The board shall report annually to the legislature the amount of money spent on, the results of, any recommendations that arise from, and any actions taken as a result of the studies.

Of the one-time appropriation of \$8,250,000 for the Educational Technology Initiative, \$72,000 shall be transferred to USDB.

USDB shall be appropriated \$42,305 per day for each additional day funded by the legislature to school districts for extra days.

236 Line-item recipients of Science and the Arts funding shall not participate in the Science and Arts request for proposal process funding administered by USOE.

Line-item recipients of Science and Arts funding shall go through a request for proposal process to reestablish their participation in the program at the level indicated during the 2001 interim.

USOE will be the supervising agent of this process. USOE shall validate the groups' function in the planned curriculum for arts and sciences in the schools and shall report to the legislature any problems or changes necessary to implement and maintain the validity of the arts and sciences program in the school curriculum.

A total of \$250,000 ongoing and \$500,000 one-time shall be distributed to the Utah Shakespearean Festival, Utah Museum of Natural History, Utah

Festival Opera, and the Children's Museum of Utah. The distribution shall be determined during the 2001 interim by USOE. The allocations shall be according to the allocation formula adopted by USOE that assures parity among the line-item organizations.

House Bill 3

FY 2002, Section 32, Number

- Pregnancy prevention in public schools must stress the importance of abstinence from all sexual activity before marriage and fidelity after marriage as methods for preventing certain communicable diseases.
- 2 Programs that have been block granted by the 2001 legislature and are no longer calculated with weighted pupil units shall be given priority for equivalent weighted pupil unit increases when considering compensation or weighted pupil unit increases by the 2002 legislature.
- 3 School districts shall meet existing spending criteria and requirements specific to those programs included within block grant categories and for which the local board of education chooses to expend block grant funds.

School districts shall report the expenditure of block grant funds to the degree of specificity and detail established by the Utah State Board of Education and sufficient to meet the intent of the legislature.

Block grant funds shall be allocated to school districts based upon the district's total WPUs in kindergarten, grades one through 12, and the necessarily existent

- small schools portion of the Minimum School Basic Program.
- 4 USOE shall convene a representative committee to study the needs of English Language Learners in Utah and related issues. The committee shall report to the Education Interim Committee by November 2001.
- 5 A total of \$72,000 of the one-time appropriation of \$8,250,000 for the Educational Technology Initiative shall be transferred to the Utah Schools for the Deaf and the Blind for FY 2002.
- 6 No more than \$70,000 of the monies appropriated to fund the School LAND Trust Program shall be expended for administration of the program each year.
- With the fiscal year beginning July 1, 2001 and for subsequent years USOE may use carryforward funds from the Minimum School Program to pay school districts the amount necessary to make them whole for any support in subsidizing a charter school for students for whom the district does not receive appropriate state or federal funding.

Senate Bill 3

FY 2002, Item

116 USOE shall not apply for nor accept federal grants specifically used to fund sexual education, including grants currently received by USOE, namely, AIDS Education and Prevention.

The discretionary component of the FY 2002 compensation package shall be used by USOE to fund its most critical salary needs.

PUBLIC SAFETY

Ron Haymond, Analyst

Overview

The total FY 2002 budget for the Department of Public Safety is \$115,888,300, an 8.7 percent increase over FY 2001. This increase was the result of a significant increase in federal funding of \$9,935,000 to plan and develop security procedures and emergency services for the 2002 Olympic Winter Games. The budget includes a General Fund increase of 2.2 percent.

Commissioner's Office

Supplemental and one-time appropriations of \$150,000 each were provided to retain a contract position for the Olympic security command. A total of \$395,300 was appropriated to lease/purchase a helicopter to replace the one that was lost in a recent crash.

Police Officer Standards and Training (POST)

The FY 2002 appropriation includes \$88,900 for a special investigator who will review and recommend swift corrective action against any sworn officer who is found to have abused his authority while enforcing the law. POST also received a one-time appropriation of \$90,000 to purchase an emergency vehicle operations simulator to supplement training at the driver training range at Camp Williams.

Criminal Investigation and Technical Services (CITS)

The legislature appropriated \$44,200 in ongoing General Fund to retain a serologist at the central crime laboratory. The serologist conducts analysis of body fluids taken from crime scenes and provides expert testimony in court hearings.

Driver License

The Driver License Division received \$400,000 from the Public Safety Restricted Fund to hire nine additional driver license examiners. In both FY 2001 and FY 2002, \$30,000 was appropriated from the motorcycle education restricted fund for equipment replacement and insurance cost increases.

Highway Patrol (UHP)

The legislature appropriated \$152,800 from the General Fund and \$127,200 from the Transportation Fund for expansion of laptop technology to two additional UHP sections.

The legislature also appropriated \$1,000,000 ongoing General Fund to fund salary equity for highway patrol troopers. The intent is to raise trooper pay to a minimum of \$2,500 per month.

Fire Marshal

The State Fire Marshal received an FY 2001 supplemental appropriation of \$705,000 and an FY 2002 ongoing appropriation of \$489,000 from the Fire Academy Support Fund to increase the training capabilities at the Fire and Rescue Training Academy. The Fire Marshal also received an appropriation of \$65,000 to hire a fire prevention specialist to inspect and review all plans for new construction or remodels of state-owned buildings, public and private schools, colleges and universities, and correctional institutions throughout the state.

Legislative Intent Statements

House Bill 1

FY 2002, Item

Funds for the Commissioner's Office are nonlapsing.

Receipts above \$15,000 of reimbursable flight time for the Department of Public Safety's aircraft are nonlapsing and can be used only to replace or repair aircraft engines and related parts.

- Funds for the Division of Comprehensive Emergency Management are nonlapsing.
- Funds for the Safety Promotion Division are nonlapsing.
- Funds for POST are nonlapsing.
- Funds for the Criminal Investigation and Technical Services Division are nonlapsing.

- Funds for the Liquor Law Enforcement are nonlapsing.
- Funds for the Driver License Division are nonlapsing.
- Funds for the Utah Highway Patrol are nonlapsing.

The Office of Highway Safety, as consistent with federal law, may transfer federal funds from this line item of appropriation to any other items of appropriation.

- Funds for Information Management Services are nonlapsing.
- Funds for the State Fire Marshal are nonlapsing.

Senate Bill 3

FY 2002, Item

29 The discretionary component of the Fiscal Year 2002 compensation package is to be used by the department to fund its most critical salary needs.

Senate Bill 1

FY 2001, Item

All troopers working for the Department of Public Safety will have a fully equipped vehicle assigned to them. In order to satisfy this intent, the department is authorized to use existing funds to increase the size of its fleet by up to 13 vehicles. The department will work with the Division of Fleet Operations to purchase the vehicles and related equipment.

TRANSPORTATION

Joe Brown, Analyst

Overview

The total FY 2002 operations budget for the Utah Department of Transportation (UDOT) is \$220,608,300, an increase of 11.5 percent over FY 2001. Major components of this increase are funding for commuter rail corridor preservation, compensation, rural airport maintenance, and additional personnel and maintenance activities for the reconstructed and expanded Interstate 15 along the Wasatch Front.

The capital budget for FY 2002 is \$528,442,000 and includes a \$146,000,000 appropriation from the General Fund to the Centennial Highway Fund. It should be noted that the capital budget does not include bonding for Centennial Highway projects. Bonding, beginning balances of the Centennial Highway Fund, interest income, and other funding sources not requiring an appropriation have been shown in the Ten-Year Transportation Funding Plan table but are not included in the department capital table.

Highlights

Centennial Highway Fund

The legislature approved the scheduled \$12,000,000 ongoing General Fund increase to the Centennial Highway Fund for FY 2002. In addition, the legislature restored the base reduction of \$20,000,000 General Fund removed in the 2000 General Session with \$20,000,000 of ongoing General Fund.

Major revenue sources for the Centennial Highway Fund include the following: \$5,077,000 in sales and use tax generated by a 1/64 percent tax rate, which originally was deposited in an Olympics Special Revenue Fund; \$61,834,000 from the Transportation Fund generated by a fuel tax increase in 1997; \$18,670,000 from registration fees for vehicles and trucks; and \$38,016,000 from federal funds.

In November 2000 voters in Salt Lake County approved an additional 1/4 cent county sales tax to be used for public transit. Of the 1/4 cent sales tax approved, one fourth or about \$10,135,000 in FY 2002 is to be used for renovations, repairs, and improvements of Interstate 15. The legislature appropriated the \$10,135,000 to the Centennial Highway Fund.

The legislature also passed Senate Bill 2, 2001 General Obligation Bond and Capital Facilities Authorizations, which authorizes \$126,250,000 for highway bonds. These funds will be used for construction costs in FY 2002.

Commuter Rail

Included in the Support Services area is a \$10,000,000 one-time General Fund appropriation to be transferred to the Utah Transit Authority (UTA) upon the execution of a binding purchase and sale agreement between UTA and the Union Pacific Railroad for a passenger rail right-of-way between Payson and Brigham City.

UDOT is to transfer an additional \$10,000,000 to UTA if UTA's agreement with Union Pacific Railroad does not require UDOT to build an overpass over the Denver and Rio Grande Western Railroad right-of-way when building the Legacy Highway. Not building this overpass will save UDOT approximately \$10,000,000 in construction costs.

In addition, UDOT will transfer approximately \$4,500,000 in land it owns that is adjacent to the Union Pacific mainline corridor to UTA for commuter rail right-of-way. In total UTA could receive up to approximately \$24,500,000 from the state to help secure a passenger rail corridor from Payson to Brigham City.

Support Services

The legislature appropriated \$82,400 in ongoing Transportation Fund and \$167,600 in one-time Transportation Fund for the Project Development System. The legislature also approved \$381,500 in ongoing Transportation Fund for technology maintenance contracts at the Traffic Operations Center.

Maintenance Management

The budget includes an \$809,100 ongoing increase from the Transportation Fund to assist the division with escalating maintenance costs. The legislature also approved \$3,778,900 from the Transportation Fund to properly maintain the additional lane miles added by the reconstruction of Interstate 15 from 10600 South to 600 North in Salt Lake City and for the two additional lanes already in use on Interstate 15 from North Salt Lake to the Junction of U.S. 89 in Farmington. This funding will be used for preservation maintenance such as overlays and seals; for routine maintenance that includes snow plowing and removal, sweeping, repairing signs and posts, street lighting, landscaping, and other activities; and for labor costs of 21 additional personnel to do maintenance, snow removal, and landscaping work.

Region Management

The legislature approved \$450,000 in one-time Transportation Fund for lab equipment upgrades that will assist the department in designing and controlling asphalt pavement mixes.

Equipment Management

The legislature approved \$1,100,000 in onetime Transportation Fund to purchase equipment and trucks for the 21 additional personnel needed for Interstate 15 maintenance.

Aeronautics

One-time General Fund of \$2,152,000 was approved to assist rural airports with maintenance needs.

Legislative Intent Statements

House Bill 1

FY 2002, Item

245 Appropriated funds of \$10,000,000 shall be immediately available to UTA to preserve essential transportation corridors upon the execution of a binding purchase and sale agreement between UTA and the Union Pacific Railroad. This appropriation is nonlapsing. If UTA's agreement with the Union Pacific Railroad does not require UDOT to build an overpass over the Denver and Rio Grande Western Railroad right-ofway as UDOT builds the Legacy Highway, UDOT shall provide another \$10,000,000 toward the UTA's corridor preservation. This money shall be immediately available to UTA upon execution of a binding purchase and sale agreement between UTA and the Union Pacific Railroad that eliminates the need for UDOT to build this overpass. This appropriation is nonlapsing.

UDOT, the Utah Transportation Commission, and UTA shall work cooperatively and in good faith to identify and transfer selected parcels or portions of parcels of real property owned by UDOT, which are contiguous to the Union Pacific mainline corridor between Payson and Brigham City, for the purposes of preserving a corridor of adequate width for future potential transportation purposes, which purposes include stations and siting and other potential passenger rail appurtenances. These parcels or portions of parcels agreed upon between UDOT and UTA shall be transferred from UDOT to UTA upon the execution of a binding purchase and sale agreement between UTA and the Union Pacific Railroad. In making this land transfer, UDOT shall not transfer any land which will adversely affect the operation and maintenance of the state highway system, including any presently identified, future highway expansion.

The department shall continue to implement the adjustment improvements contained in its Performance Management Initiative Internal Plan. This plan will continue to be updated and coordinated through the Performance Management Team, with approval from and implementation directed by the department's executive director.

The department will make a report to the Interim Executive Appropriations
Committee and Transportation Interim
Committee prior to the 2002 General
Session, indicating the efficiencies and cost reductions that have been achieved and that are anticipated as a result of implementing these improvement actions.

The department, in conjunction with these improvement initiatives, has authorization to adjust the assignment of FTE positions between line items as may be necessary in order to achieve the objectives of this plan. Such reassignments of FTE positions will be included in the report to the Interim Executive Appropriations Committee and Transportation Interim Committee and any transfer of funding will be facilitated through a supplemental appropriation request in the 2002 General Session.

The department, in conjunction with the Transportation Commission and Wasatch Front Regional Council, shall prepare a Salt Lake County ten-year transportation plan that will include the environmental assessment study for the Western Transportation Corridor, preservation of key properties in that corridor, and funding sources and requirements.

- Any and all collections or cash income from the sale or salvage of land and buildings are to be lapsed to the Transportation Fund.
- There is appropriated to the department from the Transportation Fund, not otherwise appropriated, a sum sufficient, but not more than the surplus of the Transportation Fund, to be used by the department for the construction, rehabilitation, and preservation of state highways in Utah.

The appropriation shall fund first, a maximum participation with the federal government for the construction of federally designated highways, as provided by law; next, the rehabilitation and preservation of state highways, as provided by law; and last, the construction of state highways, as funding permits.

FTEs for field crews may be adjusted to accommodate the increase or decrease in the federal construction program. No portion of the money appropriated by this item shall be used either directly or indirectly to enhance or increase the appropriations otherwise made by this act to the department for other purposes.

253 Funds appropriated from the Transportation Fund for pedestrian safety projects are to be used specifically to correct pedestrian hazards on state highways.

Local authorities are encouraged to participate in the construction of pedestrian safety devices. The appropriated funds are to be used according to the criteria set forth in 72-8-104 UCA. The funds appropriated for sidewalk construction shall not lapse. If local governments cannot use their allocation of Sidewalk Safety Funds in two years, these funds will then be available for other governmental entities that are prepared to use the resources.

Local participation in the Sidewalk Construction Program is on a 75/25 match basis.

254 Funds appropriated from the Federal Mineral Lease Account shall be used for improvement or reconstruction of highways not on the state highway system that have been heavily impacted by energy development. Private industries engaged in developing the state's natural resources are encouraged to participate

in the construction of highways leading to their facilities. The funds appropriated for improvement or reconstruction of energy impacted highways that are not on the state highway system are nonlapsing.

Senate Bill 3

FY 2002, Item

120 The discretionary component of the Fiscal Year 2002 compensation package is to be used by the department to fund its most critical salary needs.

The state share of \$500,000 for the Four Corners Interpretive Center is to be spent only upon the completion of a memorandum of agreement for the Four Corners Interpretive Center for Arizona, Colorado, New Mexico, and Utah made between the Four Corners Heritage Council, which includes participating Utah counties, the Navajo Nation, the Ute Mountain Ute Tribe, and the Secretary of the Interior.

UTA shall enter into a rail banking and interim trail use agreement with Union Pacific Railroad for the Denver and Rio Grande Western Railroad line between Woods Cross and Nye's Crossing for the purpose of a rails to trails system and to preserve the corridor and allow for its interim use for recreation and other appropriate public purposes. UTA shall seek federal funding for the aforementioned purpose.

State of Utah

Capital Budgets and Debt Service

This section includes bond authorizations, a brief description of new appropriations, and other tables showing capital projects by department and funding source.

Randa Bezzant, Analyst

CAPITAL BUDGET AND DEBT SERVICE

Overview

The capital budget includes appropriations for the acquisition, development, construction, and improvement of fixed public assets. Capital funds from the State Office of Education and from the departments of Environmental Quality and Economic Development help finance projects for school districts and local agencies. A portion of the capital resources budget for the Department of Natural Resources goes toward local water projects. All other agencies' capital projects are classified as developments, improvements, or planning.

Capital developments include the following:
1) remodeling, site, or utility projects costing
\$1,000,000 or more; 2) constructing a new facility
with a cost of \$250,000 or more; and 3) purchasing
real property where an appropriation is requested.
See Future Budget Issues section below for future
changes in these limits.

Capital improvements are major remodeling, alterations, repairs, or improvement of fixed capital assets costing less than \$1,000,000. State law requires annual capital improvement funding to be at least 0.9 percent of the estimated replacement cost of all state facilities. For FY 2002, the appropriation for capital improvements is \$43,994,000. The State Building Board allocates capital improvement funds to priority projects. See Future Budget Issues section below for future changes in these limits.

Capital planning is the programming process conducted before a project is considered for further funding. It provides the basis for choosing among alternatives.

Appropriations

The total FY 2002 capital budget of \$714,014,500 is a 15 percent decrease from FY 2001 and includes \$216,166,700 from the General Fund, \$72,656,000 from school funds, and \$241,130,500 from the Transportation Fund. The legislature also approved \$144,463,000 in FY 2001 supplemental funding, which is a 20.8 percent increase from the original FY 2001 appropriated budget. If FY 2001 supplemental funding is removed, the FY 2002 capital budget increase over FY 2001 is actually 2.7 percent.

Lawmakers also increased the ongoing capital facilities budget by \$42,076,000 for a total ongoing capital facilities budget of \$89,397,400.

Bonds

Senate Bill 2, 2001 General Obligation Bond and Capital Facilities Authorizations, authorized general obligation bonding of \$126,250,000 for state highway construction or reconstruction projects and revenue bonding of \$143,235,800 comprised mostly of Higher Education facilities.

Senate Bill 65, *Bonding for Soldier Hollow Golf Course*, approved revenue bonding of

\$12,000,000 for the construction of a 36-hole golf course at Soldier Hollow in Wasatch Mountain State Park, including necessary facilities such as a clubhouse, restroom facilities, and maintenance facilities.

Debt Service

The legislature appropriated \$174,685,200 for debt service in FY 2002. Appropriations from the General Fund and school funds cover debt service on all capital facility general obligation bonds, while appropriations from the Centennial Highway Fund cover debt service on all highway general obligation bonds. The legislature also appropriated \$3,079,000 from the Centennial Highway Fund for FY 2001 supplemental debt service requirements.

Future Budget Issues

House Bill 62, *Operation and Maintenance of State Buildings*, increased the funding required to be set aside for capital improvements from 0.9 percent to 1.1 percent of the replacement value of capital facilities. It also raised the limit of a capital improvement project from a project costing less than \$1,000,000 to one costing less than \$1,500,000. This bill became effective March 15, 2001. The FY 2003 budget increases in capital improvement funding will come from the base budget and not from new monies.

Legislative Intent Statements

House Bill 1

FY 2002, Item

70 The Department of Corrections shall present an annual report to the legislature showing approved county contract expansions to ensure that supply does not exceed the state's need. However, these contracts in no way obligate the state for future payments if the beds are not utilized by state prisoners.

No state funds shall be expended nor bonds issued for the National Guard American Fork project until federal funds are formally appropriated.

The Division of Facilities Construction and Management (DFCM) shall use up to \$585,000 from the Project Reserve Fund to hire or contract for employees to assist in the management of construction projects approved during the 2001 General Session. This funding shall not be used to hire additional permanent staff.

DFCM shall purchase the Brigham City Education Facility, together with adjacent property, from Box Elder County and lease it to Bridgerland Applied Technology Center, Utah State University, and other state entities at a rate sufficient to cover the operations and maintenance cost of the entire facility, including vacant space. DFCM may lease vacant space to other entities at market rates until such time as it is needed for state purposes.

Youth Corrections shall provide programmatic exercise space at the lowest cost possible both for construction and ongoing operations when constructing new facilities.

The Building Board shall provide capital improvement funding sufficient to complete the following projects at Southern Utah University: 1) asbestos removal from the former middle school, 2) demolition of the former middle school, 3) structural repair of Old Main Building, and 4) structural repair of the Braithwaite Building.

Interest earnings from tax funds set aside as escrow for construction projects shall accrue to the benefit of the state. In preparing the FY 2003 budget, the legislative fiscal analyst shall consider funding for increases in capital improvements, including implementation of House Bill 62, *Operation and Maintenance of State Buildings*, as part of the base budget for capital projects.

DFCM shall create a bid package to design and construct new classroom and laboratory facilities at the College of Eastern Utah, Utah Valley State College, Utah State University, and Weber State University (Davis Campus).

The legislative fiscal analyst shall prepare a report on the capacity and operational needs of the Department of Corrections. The report shall provide an analysis of the merits of various construction methods, jail contracting, and jail reimbursement and offer recommendations for future funding for the housing of inmates. It is anticipated that this report will be presented to the Executive Appropriations Committee during the 2001 interim.

State funds appropriated for capital projects shall not include funding for art.

DFCM shall use \$265,000 approved for the Canyonlands Youth Correctional Facility to purchase property and provide money for design of the new facility.

When necessary to meet interest requirements on variable rate demand obligations issued to finance highway construction projects, the Division of Finance may request a transfer of funds from the Department of Transportation.

After receiving such a request, the Department of Transportation shall transfer monies from the Centennial Highway Fund to the Debt Service Fund

to pay interest on variable rate demand obligations issued to finance highway construction.

Senate Bill 1

FY 2001, Item

41 No state funds shall be expended nor bonds issued for the National Guard American Fork project until federal funds are formally appropriated.

DFCM shall use up to \$585,000 from the Project Reserve Fund to hire or contract for employees to assist in the management of construction projects approved during the 2001 General Session. This funding shall not be used to hire additional permanent staff.

Youth Corrections shall provide programmatic exercise space at the lowest cost possible both for construction and ongoing operations when constructing new facilities.

Interest earnings from tax funds set aside as escrow for construction projects shall accrue to the benefit of the state.

DFCM shall create a bid package to design and construct new classroom and laboratory facilities at the College of Eastern Utah, Utah Valley State College, Utah State University, and Weber State University (Davis Campus).

State funds appropriated for capital projects shall not include funding for art.

Senate Bill 2, 2001 General Obligation Bond and Capital Facilities Authorizations

Section 25

The State Building Ownership Authority may issue or execute obligations, or enter into or arrange for a lease purchase agreement in which participation interests may be created, to provide for the following: 1) up to \$8,281,000 for the construction of an expansion of the Alcoholic and Beverage Control (ABC) warehouse; 2) up to \$957,100 for the acquisition of a site and construction of a store in the western part of Salt Lake County; 3) up to \$1,497,700 for the acquisition of a site and construction of a store in the southern part of Salt Lake County; and 4) additional amounts necessary to pay costs of issuance, pay capitalized interest, and fund any debt service reserve requirements. Enhanced revenues of ABC will be used as the primary revenue source for repayment of any obligation created under this authority.

The State Building Ownership Authority may issue or execute obligations, or enter into or arrange for a lease purchase agreement in which participation interests may be created, to provide up to \$100,000,000 for the acquisition and construction of a cancer clinical research hospital facility adjacent to the University of Utah Medical Center, together with additional amounts necessary to pay costs of issuance, pay capitalized interest, and fund any debt service reserve requirements. The State Building Ownership Authority shall work cooperatively with DFCM and the University of Utah to seek out the most cost effective and prudent lease purchase plan available. The University of Utah shall lease land to the State Building Ownership Authority for the construction of a cancer clinical research hospital facility adjacent to the University of Utah Medical Center. The anticipated revenue sources for repayment of any obligation created under

authority of this section are 60 percent from the Huntsman Cancer Foundation and 40 percent from institutional funds of the University of Utah, including the university's annual distribution of tobacco settlement funds from the state.

The Board of Regents, on behalf of the university or college, may issue, sell, and deliver revenue bonds or other evidences of indebtedness of the university or college to borrow money on the credit, revenues, and reserves of the university or college, other than appropriations of the legislature, to finance the cost of acquiring, constructing, furnishing, and equipping the following: 1) up to \$25,000,000 for an expansion of the University Hospital with hospital revenues used as the primary revenue source for repayment of any obligation created under authority of this section; 2) up to \$6,000,000 for the remodeling of the cafeteria and expansion of the Salt Lake Community College Student Center, with student fees used as the primary revenue source for repayment of any obligation created under authority of this section; 3) up to \$1,500,000 for the expansion of the Dixie College Gardner Student Center with student fees used as the primary revenue source for repayment of any obligation created under authority of this section; and 4) other amounts necessary to pay costs of issuance, pay capitalized interest, and fund any debt service reserve requirements.

Section 26

No state funds shall be used for the Health, Physical Education, and Recreation Building expansion at Utah State University. The university may request state funds for operations and maintenance if the facility meets the

approved purposes under Board of Regents policy R710.

No state funds shall be used for the Moran Eye Center II project at the University of Utah. The university may request state funds for operations and maintenance if the facility meets the approved purposes under Board of Regents policy R710.

No state funds shall be used for the Emma Eccles Jones Medical Sciences addition at the University of Utah. The university may request state funds for operations and maintenance if the facility meets the approved purposes under Board of Regents policy R710.

No state funds shall be used for the Museum of Natural History project at the University of Utah. The university may request state funds for operations and maintenance if the facility meets the approved purposes under Board of Regents policy R710.

No state funds shall be used for the Hurricane Education Center at Dixie College. The college may request state funds for operations and maintenance if the facility meets the approved purposes under Board of Regents policy R710.

No state funds shall be used for the Shakespearean Festival Centre at Southern Utah University. The university may not request state funds for operations and maintenance of the facility.

No state funds shall be used for the Wasatch Family History Center at the Utah State Prison. The Department of Corrections may request state funds for operations and maintenance of the facility.

The Department of Workforce Services may use \$1,186,700 from its Special Administrative Expense Fund to plan, design, and construct an addition to the Cedar City Employment Center. The department may request state funds for operations and maintenance of the facility.

DFCM, acting on behalf of the Department of Natural Resources (DNR), may enter into a lease purchase agreement with Carbon County to provide needed space for agency programs in the area if DNR obtains the approval of the State Building Board by demonstrating that the lease purchase will be a benefit to the state and that the lease, including operations and maintenance costs, can be funded within existing agency budgets.

DFCM will perform the following:
1) use \$17,294,400 in state funds to erect a new engineering lab and classroom building at Utah State University (USU), and 2) place \$5,943,500 in state funds in escrow for the renovation of the existing engineering building to be matched against \$10,000,000 in nonstate funds raised by the university. No state funds shall be expended on the remodel of the USU Engineering Building until the university has received all \$10,000,000 in non-state funds.

DFCM will perform the following:
1) use \$4,613,000 to remodel the
Merrill Engineering Building at the
University of Utah, and 2) place
\$15,000,000 in escrow for a new engineering building to be matched against
\$30,000,000 in non-state funds raised
by the university. No state funds shall
be expended on the new engineering
building until the university has

received at least \$13,000,000 in non-state funds.

Senate Bill 65, Bonding For Soldier Hollow Golf Course

The State Building Ownership Authority may issue or execute obligations to provide up to \$12,000,000 for the construction of a 36-hole golf course at Soldier Hollow in the Wasatch Mountain State Park, including necessary facilities such

as a clubhouse, restroom facilities, and maintenance facilities, together with additional amounts necessary to pay costs of issuance, pay capitalized interest, and fund any debt service reserve requirements.

The State Building Ownership Authority shall work cooperatively with Division of Parks and Recreation in the design and construction of the golf course at Soldier Hollow.

State of Utah

Internal Service Funds

This section defines internal service funds and includes tables showing program revenues, capital acquisitions, and staffing.

Randa Bezzant, Analyst

Internal Service Funds

Overview

Internal service fund (ISF) agencies provide products and services such as motor pools, data processing centers, and publishing services to state and other governmental agencies on a cost-reimbursement basis. They are set up to avoid duplication of effort among agencies and to account for the cost of certain governmental services.

Although ISFs are operated much like private businesses, they do not generate excessive profits and are subject to the same administrative statutes as state government agencies. ISF agencies must receive legislative approval for all capital acquisitions and full-time equivalent (FTE) positions. State agency budgets include funding for ISF services.

The Total Operating Revenue table (Table 41) shows the amount each ISF is expected to collect from user agencies. The Capital Acquisition Limits table (Table 42) shows the maximum dollar amount of capital assets that may be acquired by ISF agencies. The FTEs table (Table 43) shows the authorized number of FTE positions in each ISF.

Highlights

The Planning and Design program in the Division of Facilities Construction and Management (DFCM) originally sought to offer space planning and design services to state agencies. Since its 1998 inception, the program has assumed other DFCM roles to maintain viability. While these roles are part of the core mission for DFCM, they are not in keeping with the original mission of this program. Therefore, the legislature eliminated this program and moved its current functions to the Facilities Management program.

The legislature continues to appropriate \$4,000,000 of ongoing General Fund to Fleet Operations for capitalization of the state's motor pool fleet. As this appropriation continues into future years, Fleet Operations will eventually be free of the need to borrow from the General Fund for asset acquisitions. This appropriation is shown in the Administrative Services section of the Budget Summary.

Legislative Intent Statements

House Bill 1

FY 2002, Item

- The Department of Corrections Data Processing ISF is nonlapsing.
- 63 Unless inappropriate or prohibited by law, the Office of State Debt Collection shall be authorized to establish reasonable costs of collection to be passed onto the debtor including attorney fees, all legal costs, and administrative costs.

- 64 68 All Administrative Services ISFs except
 Debt Collection may add FTEs beyond
 the authorized level if it represents a
 benefit to the state and a decrease of
 FTEs in the user agency. Total FTEs
 within state government shall not change
 with this shift of FTEs. Agencies transferring FTEs to ISFs shall report
 decreased personal service expenditures
 and corresponding increased ISF charges
 resulting from the transfer to the
 Executive Appropriations Committee.
- 64 Purchasing and General Services shall consolidate publishing operations to maximize efficiency and enhance savings opportunities with high volume copier services.
- The Department of Administrative
 Services Division of Information
 Technology Services (ITS) will develop
 an on-line system for billing its customers. Where possible, the system
 should replace paper billing and include
 a mechanism by which customers confirm bill payment and provide feedback
 about ITS rates and services.

The legislative fiscal analyst shall prepare an analysis of 4x4 usage and policy in the state fleet.

The legislative fiscal analyst shall prepare an analysis of Higher Education's participation in the state fleet.

The Division of Fleet Operations and the Rate Committee shall establish a rate to charge agencies that do not pick up their replacement vehicles on the day that they are deemed ready by Fleet Operations.

68 Facilities Management ISF shall transfer its contributed capital balance of \$171,719.80 to retained earnings. This transfer will eliminate a portion of the \$256,040 deficit retained earnings balance of the Planning and Design program.

Facilities Management ISF may add FTEs beyond the authorized level if new facilities come on line or maintenance agreements are requested. Any added FTEs will be reviewed and approved by the legislature in the next legislative session.

State of Utah

Revolving Loan Funds

This section defines revolving loan funds and includes a table showing appropriated revolving loan funds.

REVOLVING LOAN FUNDS

Overview

Numerous revolving loan programs have been established by the State of Utah to promote economic development within the state. These loan funds are typically provided startup General Fund appropriations when established. Some loan funds receive periodic General Fund appropriations to enhance the loan programs. In addition, some loan programs receive federal funds and private contributions. Once established, loan repayments generally remain within the loan programs in order to provide additional monies for future loans. Thus, a revolving source of funding is provided.

Several revolving loan programs provide lowinterest loans to local governments, such as cities and counties, to provide water and sewer systems or other vital infrastructure necessary for economic growth. Other revolving loan programs provide low-interest loans and grants to provide lowincome housing for Utah residents, while others provide loans for agricultural development in the state. In addition, the Industrial Assistance Fund provides low-interest loans to businesses that provide new jobs in rural Utah. If these businesses create an established number of new jobs, they are not required to repay all or part of the related loan.

Since the fund balances within loan programs are not a source of operating or capital funding for state departments, the budgets and other financial information relating to revolving loan programs are generally not included in departmental budget tables. One exception to this is the appropriation of new state funds, such as General Fund and Mineral Lease revenue, to loan programs. When new state funds are appropriated, they are shown in departmental budget tables as a source of funding as well as an offsetting transfer to the loan program. This results in a net zero impact on the department's budget.

Table 44, Appropriated Revolving Loan Funds, shows the total legislative appropriations to revolving loan funds, including new state funds, loan repayments (shown as either dedicated credits or restricted and trust funds), federal funds, and carryforward balances.

- 1 Table 44 includes funding available to loan from each appropriated revolving loan fund. The appropriated budgets for revolving loan funds are not included in departmental budget tables since they do not provide operating or capital funds for use by state departments. The funds available are loaned or granted to local governmental entities, private businesses, or individuals. However, new state fund appropriations to loan funds are shown in the department operations and capital tables, along with an offsetting transfer out to the revolving loan fund.
- 2 \$500,000 of the General Fund appropriation is not included here because it will be used for low-income housing grants. The \$500,000 for grants is shown in the Department of Community and Economic Development operating table.

³ These restricted funds come from the 1/16th of 1% state sales tax that is designated by law to go to these loan funds. The amounts are based upon adopted revenue estimates, and not appropriated amounts.

State of Utah

Personal Services Summary

This section shows changes in salary benefits in employee compensation, current benefit rates, and staff levels approved by the legislature.

Megan Hough, Analyst

Personal Services Summary

Overview

Article VII, Section 18, of the Utah Constitution requires that compensation for the governor, lieutenant governor, state auditor, state treasurer, and attorney general be set by law. Compensation for judges and certain executive branch officials is also set by law. Section 67-8-5 UCA requires the legislature to consider the recommendations of the Executive and Judicial Compensation Commission when determining compensation for executive and judicial branch officials.

Section 36-2-2 UCA prescribes the level of compensation paid to members of the legislature. The salary for members of the legislature is set in the odd-numbered year of the annual general session and is based upon recommendations of the Legislative Compensation Commission from the previous even-numbered year. The legislature, during the even-numbered annual general session

in the year just preceding the effective date of any salary change, may reject or lower the salary recommendation but may not increase the salary recommendation. Otherwise, the amount recommended by the Legislative Compensation Commission in the preceding even-numbered year shall automatically be set beginning January 1st of each odd-numbered year.

Public Education, Higher Education, and other state employee compensation is determined by legislative intent and is limited by appropriation.

Executive and Appointed Offices

After considering the governor's request and the recommendation of the Executive and Judicial Compensation Commission, the legislature passed Senate Bill 176, *Executive Compensation*, which fixed FY 2002 salaries for constitutional offices as follows:

ELECTED STATE OFFICIALS' SALARIES (EXCLUDING LEGISLATORS)

| | Current Salary | FY 2002 | Percent Increase |
|---------------------|-------------------|-----------|---------------------|
| Governor | \$96,700 | \$100,600 | 4.0% |
| Lieutenant Governor | 75,200 | 78,200 | 4.0 |
| Attorney General | 81,300 | 84,600 | 4.0 |
| State Auditor | 77,600 | 80,700 | 4.0 |
| State Treasurer | 75,200 | 78,200 | 4.0 |

Senate Bill 176 also sets salary ranges for other state officials and stipulates that the governor set each appointed official's salary within the

designated range. The FY 2002 ranges are 4.0 percent above FY 2001 ranges.

| | FY 2002 Ranges |
|--|---------------------|
| Commissioner of Agriculture and Food | \$64,600 - \$87,500 |
| Commissioner of Insurance | 64,600 - 87,500 |

Legislators

Compensation for legislators was increased during the 1999 General Session. House Bill 113, *Legislative Compensation Commission Amendments*, passed in the 1999 General Session, automatically implemented the salary increase for legislators.

The FY 2002 legislative compensation will remain at FY 2001 levels until the Legislative Compensation Commission recommendations, submitted in November of this year, are considered. The new recommendations will be automatically implemented unless legislators vote against the increase.

Legislators will receive \$120 per day for each calendar day of the annual general session. In addition, legislators will receive \$120 for each day they attend a veto override session, special session, or other authorized legislative meetings. The president of the Senate and the speaker of the House each receive \$3,500 per year. The majority and minority leaders of each house receive \$2,000 per year.

Legislators receive benefits similar to state employees. The state pays 90 percent of the highest premium for health insurance, 80 percent of the highest premium for dental insurance, and offers optical insurance at the legislator's expense. In addition, the state pays the premium for the basic life insurance coverage of \$25,000. Legislators are also eligible for retirement benefits under the Governor's and Legislative Service Pension Act. Upon reaching age 65, and upon application, a legislator with four or more years of service will receive a pension equal to \$10 per month for each year of service as a member of the legislature.

State Employees

The legislature approved a compensation package of 4.0 percent to be used first, to fund a one-step Merit increase and associated salary driven costs for all eligible employees; second, to

fund one-time bonuses to employees in longevity, regardless of other pay advances, at a rate of \$500 for above standard performance or \$700 for exceptional performance; and third, to use remaining funds for discretionary salary increases to employees based upon performance and other salary related issues according to rules and procedures established by the Department of Human Resources.

Market comparability adjustments (MCAs) were funded separately by the legislature at only 55 percent of the General Fund cost. To make up the shortfall, the Department of Human Resource Management reduced the number of employees receiving an MCA. In addition, state agencies are required to use federal funds, dedicated credits, or restricted funds where possible to make up the remaining shortfall.

The legislature approved funding for increased health and dental premiums. State employees' share of health insurance premiums for the Preferred Plan will increase from 5.0 percent to 7.0 percent. The coverage for group basic term life insurance was increased to \$25,000.

It is the intent of the legislature that the FY 2002 compensation package for state employees begin on June 23, 2001 to coincide with the state payroll period.

Public Education/Higher Education

The Public Education compensation package for local school district employees is included in House Bill 3, *Minimum School Program Act Amendments*. The legislature increased the value of the Weighted Pupil Unit by 5.5 percent for compensation and other operational costs. The legislature also provided an additional \$10,000,000 for two extra days designated for training.

Actual salary increases are negotiated in the individual school districts and may vary significantly. Local factors, such as voted leeways, may also affect the amount of funding available for salary increases. Employees at the Utah state

offices of Education and Rehabilitation are state employees and are covered by the state compensation plan.

The legislature approved a 4.0 percent salary increase for Higher Education faculty and staff with three-quarters of the amount needed for the increase coming from state funds. The remainder comes from dedicated credits (mostly tuition). The Board of Regents increased tuition by an additional 1.5 percent to be used for additional compensation issues.

Funding was also provided to address salary inequities within the institutions. Each institution will identify the funds needed for benefit package increases and use the remaining funding plus additional funding from tuition increases or internal reallocations for salary increases.

The legislature also funded a 16.1 percent increase in health insurance premiums and a 3.0 percent increase in dental insurance premiums.

Legislative intent language requires that any salary increases be distributed to faculty, professional, and classified employees in an equitable manner.

Judicial Officials

Section 67-8-2 UCA states that the salaries of judges of courts of record shall be set annually by the legislature in an appropriations act. House Bill 1, *Appropriations Act*, increased judicial salaries by 4.0 percent for FY 2002. Salaries for judges for FY 2002 are as follows:

JUDICIAL SALARIES

| Chief Justice | \$116,050 |
|-----------------------|-----------|
| Associate Justice | 114,050 |
| Appeals Court Justice | 108,900 |
| District Court Judge | 103,700 |
| Juvenile Court Judge | 103,700 |

Table 46 shows the estimated positions in each department. This table does not include teachers and staff in Public Education, Applied Technology Centers and Regions, or in Higher Education.

State of Utah

Appropriations Bills Summary

This section lists state appropriations in the three major appropriations acts, House Bill 1, Senate Bill 3, and Senate Bill 1. It also shows the Minimum School Program as contained in House Bill 3. Appropriations by other bills, nonlapsing authority, and budget vetoes are also included.

NOTES TO APPROPRIATIONS BILLS

House Bill 1, Appropriations Act

House Bill 1, *Appropriations Act*, is the main appropriations act for FY 2002. This appropriations act provides fundamental budget authority to state agencies and institutions from a variety of funding sources. Appropriations are designated in numbered line items for specific state programs. For summary purposes, individually authorized state programs are not shown in this budget document. Also, pages 108 to 222 of the bill consist of department fees.

- Item 211 This item transfers \$69,200 from the General Fund to reimburse the Department of Agriculture for the Department of Natural Resources' share of the Predator Control program.
- Item 212 This item transfers \$255,200 in license fees from the General Fund to the Restricted Wildlife Resources Account in the Department of Natural Resources.
- Item 241 This item is divided between the operations and capital budget for purposes of presentation.
- Item 242 This item is included in the revolving loan fund section and is not considered an expenditure for summary in this section.
- Item 243 This item is included in the revolving loan fund section and is not considered an expenditure for summary in this section.
- Item 248 This item is divided between the operations and capital budget for purposes of presentation.

Senate Bill 3, Supplemental Appropriations Act II

Senate Bill 3, Supplemental Appropriations Act II, provides supplemental budgetary authority to state agencies and institutions for FY 2001 and FY 2002 from a variety of

funding sources. Appropriations are designated in numbered line items for specific state programs. This appropriations bill includes a compilation of appropriations authorized by individual legislative bills. For this reason, this bill is commonly known as the "Bill of Bills." For summary purposes, individually authorized state programs are not necessarily identified in this budget document.

The appropriation transfers General Fund to the Library Expendable Trust Fund for the

FY 2002

Item 87

| | financing of bookmobile box purchases. |
|----------|---|
| Item 101 | This item transfers \$25,600,000 for the University of Utah from income tax (school funds) to General Fund. |

Item 102 This item transfers \$5,600,000 for Utah State University from income tax (school funds) to General Fund.

Item 122 This item is divided between the operations and capital budget for purposes of presentation.

Item 9 This item transfers \$895,000 from the General Fund to the General Fund Restricted - Constitutional Defense Fund, but does not appropriate any of these funds from that restricted account.

FY 2001

Item 128 This item transfers funds from the Olympic Special Revenue Fund to the General Fund and then item 129 appropriates \$1,000,000 from the General Fund to the State Olympic Officer.

Item 133 This item transfers \$1,200,000 from beginning balances in the Commerce Service Fund (CSF) to the General Fund and also appropriates \$20,000 from the CSF beginning balances to the Commerce Department for the physical relocation of the Committee of Consumer Services.

Item 135 The appropriation transfers General Fund to the Library Expendable Trust Fund for the financing of bookmobile box purchases.

Senate Bill 1, Supplemental Appropriations Act

Senate Bill 1, *Supplemental Appropriations Act*, provides supplemental budgetary authority to state agencies and institutions for FY 2001 from a variety of funding sources. Appropriations are designated in numbered line items for specific state pro-

grams. For summary purposes, individually authorized state programs are not necessarily identified in this budget document.

FY 2001

Item 55

Corrects appropriation act entries of the 2000 General Session. Monies are being transferred from the Mineral Lease Bonus Account to the Mineral Lease General Fund Restricted Account to cover statutorily directed allocations. No dollars appear in this summary table because funds are simply being shifted from one restricted account to another within the Mineral Lease funding category.

Item 118

This item represents a transfer from one fund to another. See item 42 for the corresponding appropriation to Debt Service.

House Bill 3, Minimum School Program Act Amendments

House Bill 3, *Minimum School Program Act Amendments*, amends the Utah Code annually to provide the state's contribution and related budget authority to the State Board of Education for distribution of FY 2002 funding to local school districts. School districts assess a uniform basic property tax levy for maintenance and operations, which is supplemented from the Uniform School Fund. This combination of state and local funds for Public Education programs is generally allocated by formula based on the Weighted Pupil Unit (WPU). For FY 2002, the WPU is valued at \$2,116, which is a 5.5 percent increase over FY 2001.

Bills Carrying Appropriations

In addition to the above listed appropriations acts, a number of bills were passed by the legislature that carry their own appropriations. Each bill uses appropriation language to specify the state agency or institution receiving funds, the purpose of the appropriation, the appropriation amount, the source of funds, and the fiscal year impacted. See Table 49.

BUDGET VETOES

Governor Leavitt vetoed three bills from the 2001 General Session and held back FY 2001 appropriations totaling \$35.4 million.

House Bill 158, Individual Income Tax - Addition of Interest to Federal Taxable Income

This bill eliminated the state income tax exemption for interest income paid on bonds issued by state and local governments outside of Utah. It retained the exemption for interest paid on government bonds issued in Utah.

Although House Bill 158 was considered during the legislative session, it did not receive the public scrutiny it has since the completion of the session. Governor Leavitt vetoed the bill because the issues raised by the bill were not clearly debated during the session. In addition, the fiscal note attached to the bill stated there was no significant fiscal impact, but it appears that the tax impact could be significant.

Governor Leavitt supports reconsideration of this issue by the legislature at a future opportunity.

House Bill 168, Notice by School to Custodial and Noncustodial Parent

House Bill 168 required a public school to notify both the custodial parent as well as the noncustodial parent of a student who is injured or becomes ill at school and requires treatment at a facility away from school. The school would be requested to notify, "except when the court has directed otherwise."

Governor Leavitt was not concerned with the intent of the bill. Rather, he was concerned with the burden the bill places on school administrators to determine the contents of a divorce decree or other court order affecting the noncustodial parent's rights. If incorrect in their judgement, the school could face potential liability; or in an extreme case, harm could come to the child.

The governor pledged to work with the bill sponsor to draft an acceptable alternative that would implement the intent of the bill without creating risks to children or liability to schools.

Senate Bill 222, Notification by Family Services of Noncustodial Parent of Child's Removal

This bill required a public school, case worker, or peace officer to notify both the custodial parent as well as the noncustodial parent of a minor who is expelled, suspended, or taken into custody. In the case of a school, the noncustodial parent must be notified "unless otherwise ordered by a court." The bill places different standards on case workers and peace officers.

The intent of this bill was not in question. Similar to House Bill 168, the governor was concerned with the burden the bill places on school administrators to determine the contents of a divorce decree or other court order affecting the noncustodial parent's rights. Moreover, the bill's distinct treatment of schools, case workers, and peace officers deserved more attention and harmonization if possible.

The governor pledged to work with the bill sponsor to draft an acceptable alternative that would implement the intent of the bill without creating risks to children or liability to schools.

FY 2001 Appropriation Hold Backs

Because of concern that revenue estimates might be lower than expected for FY 2001, Governor Leavitt administratively held back funding for four supplemental appropriations totaling \$35.4 million. Funding held back included the following: 1) University of Utah Engineering Building, total construction costs of \$2.3 million held back; 2) Dixie Fine Arts Building, total construction costs of \$13 million held back; 3) Snow Performing Arts Building, total construction costs of \$15.1 million held back; and 4) state parks renovations, \$5.0 million held back. The design costs for the Higher Education buildings were not held back, so design will proceed as expected. Only

half of the supplemental appropriation for state parks renovations was held back.

These projects were selected for the following reasons: 1) they were in Senate Bill 1, Supplemental Appropriations Act, so they matched the fiscal year in which there is a revenue concern; 2) they were large enough projects to address the potential revenue shortfall; 3) other supplemental appropriations were to pay for programs where the department has already spent or committed the funds; 4) the capital projects were appropriated with surplus dollars, thus if the surplus is less than expected these projects should be placed on hold; and 5) the other capital projects were the Utah State University heat plant, which has been designed and requires completion, and a package of four Higher Education classroom buildings that need to proceed as a group to achieve the cost savings expected.

Revenue data will be clearer as the fiscal year progresses. Revenue estimates will continue to be closely monitored in order to determine if the held funds can be released.

NONLAPSING AUTHORITY

The legislature gave state agencies more budget flexibility by passing Budgetary Procedures Act - Nonlapsing Authority legislation in the 1994 General Session. Under Section 63-38-8.1 UCA, agencies submit a list of possible one-time uses of carryforward funds to the governor. The governor reviews these lists and includes a proposal in his budget recommendations for any carryforward funds that may occur.

The legislature may approve some or all of the recommended projects and may rank them in priority order. This list does not assume that there will be any carryforward funds, but rather directs spending in the event there are unused funds at the end of the fiscal year. All items listed below are contained in Senate Bill 1, *Supplemental Appropriations Act*.
