Dear Executive Water Finance Board,

As you know, the Executive Water Finance Board was created by executive order to study and receive public input on the many economic and fiscal issues related to the State's role in developing Utah's water policy.

As part of this important work, I am requesting that the Executive Water Finance Board conduct an extensive review of the Recommended State Water Strategy Report developed by the Water Strategy Advisory Team. Your review should include developing recommendations on any economic and fiscal issues related to the State of Utah's role in water policy and financing. In addition, the review should include a comparison of the attached materials that have been put forward over the past several years and that I believe should be met as we examine alternatives for allocating state funds that are currently dedicated for water.

Thank you for your willingness to serve. I look forward to receiving your recommendations.

Sincerely,

A handwritten signature in black ink that reads "Gary R. Herbert".

Gary R. Herbert  
Governor
