Dear Governor Herbert:

The Public Health and Economic Emergency Commission met on April 27, 2020, and discussed its previous recommendations made on April 21, 2020, regarding social distancing requirements in restaurants under the orange level of public health guidance found in the "Phased Guidelines for Business to Maximize Community Health and Economic Reactivation". The Commission unanimously voted to clarify its recommendation regarding social distancing requirements in restaurants to state that under the orange level of public health guidance, the commission recommends that table spacing be such that groups of patrons at one table are able to maintain six feet between themselves and other patrons.

Sincerely,

Senator Daniel Hemmert
